IV. Procedure for the termination and redemption of the Notes via Authorised Participant

A Noteholder can only redeem the Notes through an Authorised Participant, unless directly redeemed with the Issuer as described in the Base Prospectus.

The Issuer can at any time and for reasons it considers important (such as new laws or regulations entering into force requiring the Issuer to obtain a license; service providers cease to provide services essential for the Notes and the Issuer fails to find a replacement etc.) terminate the Notes. In the case of a termination by the Issuer the Noteholder has to (i) submit a Mandatory Redemption Form on the Issuer's website and any further documents requested in such form for verification of the Noteholder's identity to the Issuer. Such Mandatory Redemption Form shall include (among other information) the number of Notes being redeemed and information on the Noteholder's Digital Wallet(s).

Notes are redeemed in units of BTC to the Cryptoasset Entitlement or in USD in an amount corresponding to the USD Reference Price.

"**Cryptoasset Entitlement**" means, as at any Business Day, the number of units of a Cryptoasset per Note as calculated by the Issuer in its sole discretion in accordance with the following formula:

CE(T) is the Cryptoasset Entitlement at **T**.

CE(T) = (H(T) – DER + NY(T)) / Number of ETP Notes issued.

H(T) is the sum of all the holdings at **T**.

DER means Diminishing Entitlement Rate, **which** means a fixed daily percentage related to the total expense ratio.

V. Extraordinary termination and redemption in an Event of Default

VI. Collateral

The Issuer has undertaken to have an amount in the underlying Cryptoasset or underlying Cryptoassets comprising the Basket, or any other eligible Underlyings related to the respective Series of Notes pledged in favor of the Noteholders as collateral for the Issuer's debt to the Noteholders of each Series of Notes. These Series Assets, primarily consisting of Cryptoassets, are pledged to provide security for the obligations of the respective Series and may be held either with third-party custodians or in self-custody by the Issuer. While the pledge over assets held with third-party custodians benefits from established legal frameworks and independent oversight, a portion of the Series Assets held in self-custody by the Issuer may present challenges regarding enforceability (see in Detail VIII c).

VII. Where will the Notes be traded?

Application is intended to be made for the Notes to be admitted to trading on European Regulated Stock Exchange, ETP segment. There is no guarantee that such application or applications will be successful or, if successful, that such admissions to trading will be maintained. III. Why is this prospectus being produced

Unless specified otherwise in the relevant Final Terms, the reason for the issue of Notes under the Program is primarily to finance the general business development of the Issuer. The Issuer intends to make profits with the issue of the Notes. The Issuer makes profit through charging different types of fees such as Subscription Fee, Management Fee, any Net Yield Commission that may be earned, and Redemption Fee etc.

The applicable fees and rates as well as the applicable Diminishing Entitlement rate are determined in the Final Terms of the Notes. The Issuer does not owe or guarantees the investment into a particular underlying and is free to invest the proceeds from the issuance of the Notes as the Issuer deems appropriate – the return and repayment of the Notes are, however, linked directly or indirectly to the performance of the relevant underlying's even if the Issuer does not invest into the underlying.
