LEAVES COMPARISON CHART CALIFORNIA

CFRA Coordination with FMLA

- Leave taken by an employee under CFRA runs *concurrently* with FMLA, except where leave is taken under FMLA for disability due to pregnancy, childbirth or related medical conditions. **Leave for pregnancy or pregnancy-related disability counts only toward the employee's FMLA leave entitlement (as well as toward PDL, as discussed below) and not toward the leave rights granted under CFRA.** This is because CFRA specifically excludes leave taken for disability due to pregnancy, childbirth, or related medical conditions as a serious health condition of the employee. As a result, an employee who exhausts FMLA (and PDL) for a pregnancy-related disability is still entitled to leave under CFRA in order to bond with the newborn child.

PDL Coordination with FMLA and CFRA

- The FMLA treats any period of incapacity due to pregnancy or for prenatal care as a serious health condition which entitles the employee to leave. As a result, **leave taken for pregnancy- related disability will count toward both the employee's FMLA and PDL entitlements** (so the leave periods will run *concurrently*).
- However, because CFRA does not include leave taken for disability due to pregnancy, childbirth or related medical conditions as a serious health condition of the employee, **PDL does not run concurrently with leave under CFRA.** As a result, an eligible employee who is certified to take the full 17 1/3 weeks of PDL (concurrently with the 12 weeks of FMLA) and then 12 weeks of CFRA for baby bonding, will have a combined total of 7 months of leave.

San Francisco Paid Parental Leave (PPL)

- Employees who work at least 8 hours per week in San Francisco and work at least 40% of their weekly hours in San Francisco are eligible to receive up to 100% of their weekly wages during the CA PFL new child bonding period capped at **\$2,402 for 2025** (60% from PFL and 40% from the employer).
