

CryoPro® Handling devices

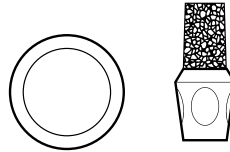

Carrying bag

Ideal for transporting your CryoPro® when working remotely. The bag has a practical strap for safety in car.

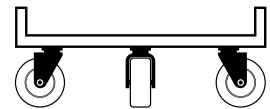

Protective gloves and eyewear

We provide protective wear for both hands and eyes when filling your CryoPro® bottle.

Filters and gaskets

Replaceable filters for withdrawal tube, and gaskets which ensure the tightness of your CryoPro® bottle.

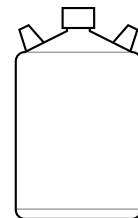

Roller base

Universal type for easy move of dewars with liquid nitrogen. Fits different dewar sizes.

Withdrawal tube

Universal type for pouring the liquid nitrogen from your dewar to your CryoPro® bottle.

Storage containers

We offer a wide selection of metal dewars in different sizes and static holding time.

CryoPro®

A versatile low-cost treatment
of common skin lesions
