

DermaLab® Combo

Advanced flexible tool
for complete skin analysis

The complete solution

Choose a professional flexible instrument that allows you to meet every need for skin measurement.

The DermaLab® Combo makes it possible for you to combine all the parameters you need in one advanced instrument for in-depth skin analysis.

Customize your DermaLab® Combo

Choose between 12 skin probes including high resolution ultrasound (collagen/fat level), TEWL, elasticity, hydration, sebum, pH, temperature, Dermoscope camera and color (also including melanin and erythema index).

The DermaLab® Combo features up to 9 parameters at the same time. It is delivered complete with probes, main unit and Windows software.

TEWL Probe

Color Probe

Elasticity Probe

Microscope Probe

Hydration Pin Probe

pH Probe

Ultrasound Probe

Temperature Probe

Skin analysis powerhouse

All the parameters you need in one elegant instrument
