### Accounting treatment of the €90 Mio compensation from Kering

The accounting treatment of the Euro 90 million compensation for the early termination of the Gucci license has been decided in coherence with the underlying obligations set forth in the Strategic Product Partnership Agreement ("SPPA") signed on January 12, 2015 with Kering Group. According to this, it was deemed appropriate by management to account for the majority of the compensation between 2017 and 2018, respectively in the measure of Euro 43 million in 2017 and Euro 39 million in 2018, following the contractual split of the volumes in the two years to which the agreed anticipated termination of the Gucci license (previously expiring at the end of December 2018) and key obligations under the SPPA agreement refer to.

It was considered appropriate to recognize the remaining part of the compensation, equal to Euro 8 million, in the profit and loss of 2016, given the start of the SPPA agreement in the second half of the year, with the shipment of the first significant bulk of volumes under the SPPA agreement in the fourth quarter of 2016. The above compensation amounts are included in other operating incomes.

As a reminder, the total Euro 90 million compensation was agreed with the contract executed on January 12, 2015 with Kering Group that confirmed the early termination of the Gucci license agreement at the end of December 2016 and a Strategic Product Partnership Agreement (SPPA) for the development and manufacture of Gucci's Made in Italy eyewear products by Safilo. The first tranche of the compensation equal to Euro 30 million was received on 12 January 2015, the second tranche equal to further Euro 30 million was paid in December 2016, while the third tranche will be settled in September 2018.
