l) Direction and coordination activities (ex Article 2497 and ff.)

In accordance with IFRS no. 10 HAL Holding N.V. is deemed to have control over the Company and, accordingly is required to consolidate the Company in its consolidated financial statements as from January 1, 2014 (even though the ownership interest of HAL Holding N.V. in the Company is below 50%). However, as the criteria typically defined as significant by the relevant doctrine and by common practice in order to declare a direction and coordination situation by the controlling company are not met, the Company is still deemed not to be subject to the direction and coordination activity (as such activity is defined under Articles 2497 ff. of the ICC) by other entities, including HAL Holding N.V..

As a general rule, pursuant to Article 2497-sexies of the ICC it is presumed that unless it is proved otherwise, a company is deemed to be under the direction and coordination of the entity which is bound to consolidate the same company in its financial statements, such presumption does not apply in the case at issue for the following main reasons:

- (i) the Company continues to autonomously define its general strategic and operative guidelines and to negotiate independently and in fully autonomy with customers and suppliers; its decision-making process is therefore

carried out independently from the decision-making process of HAL Holding N.V.;

- (ii) the Company is managed by a Board of Directors the majority of whose members are not members of corporate bodies of HAL Holding N.V. or its subsidiaries. Moreover, the Board of Directors also has a sufficient number of independent directors to ensure that their opinions have a significant impact on the judgment and decisions of the Board of Directors;
- (iii) the Company is not subject to any centralized management approach by HAL Holding N.V. which, indeed, according to the report of its Executive Board has not developed a central risk management system, thus allowing each investee company, including the Company, to have its own financial structure and be responsible for evaluating and managing its own risks. Moreover, since HAL Holding N.V. (a) has not included the Company in its management reporting system, which monitors the performance of the investee companies, and, therefore, (b) has no instruction rights with respect to the governance of the Company, HAL Holding N.V. will continue to include the financial results of the Company in the segment “quoted minority interests” of its accounts;
- (iv) although a member of the Executive Board of HAL Holding N.V. is also a member of the Board of Directors of the Company, the information he periodically obtains in this capacity has never been used – and will never be used – for the preparation of the consolidated financial statements of HAL Holding N.V., so as to preserve confidentiality and to allow the Company to operate independently from any of its shareholders. Accordingly, the risk management and internal control systems of the Company, with respect to financial reporting risks, are neither monitored nor managed by HAL Holding N.V..

For the sake of completeness and in the interest of transparency, the consolidation of the Company in the consolidated financial statements of HAL Holding N.V., as requested by the IFRS no. 10, may have a material impact on both companies in terms of accounting reconciliation and consolidation requirements. The Company has therefore agreed with HAL Holding N.V. on certain procedures for the exchange of information, which allow the latter to comply with its (statutory) obligations in preparing its consolidated financial statements on a timely basis, while avoiding any interference with the Company’s accounting standards and relevant interpretations, its administrative and accounting system, as well as its internal control system.

In order to make the aforesaid exchange of information more efficient and expeditious, HAL Holding N.V. and the Company, among other things, have (a) set up a procedure aimed at ensuring, to the maximum possible extent permitted by accounting laws and regulations applicable to each of them, that their financial statements are based on materially the same accounting policies or, whenever it is not possible to fully converge the accounting principles of the Company and HAL Holding N.V., at making the necessary (accounting) adjustments to the financial statements of the Company to be reflected in the consolidated group reporting of HAL Holding N.V.; (b) agreed to review the effect of any newly issued accounting standards (if any) with the objective to converge, where practically and legally possible, the implementation of these new standards in the financial statements of both the Company and HAL Holding N.V.; and, (c) jointly hired an independent financial expert, who, through access to the appropriate management and control bodies of both concerned companies (including, as far as the Company is concerned, the Control Risk and Sustainability Committee and the external auditing firm), is required to reach his own assessments and form an opinion on any accounting/financial matters relating to the Company, which should be taken into account in the consolidation process. This activity of the financial expert (which is not to be deemed as an audit or review of the accounts of the Company) will allow HAL Holding N.V. to comply with IFRS in consolidating its ownership interest in the Company while preserving, at the same time, the current risk management and internal control systems of the Company from any external influence (thus rebutting also any presumption of direction and coordination of HAL Holding N.V. over the Company).

It is specified that the information required by Article 123-*bis*, first paragraph, letter i) of the CFA relating to directors’ indemnities in the event of resignation, dismissal or termination of employment following a takeover bid, is illustrated in the Report on the Remuneration. Please refer to Report on Remuneration published pursuant to Article 123-*ter* of the CFA and available on the Company’s website.

As regards the information required by Article 123-*bis*, first paragraph, letter l) of the CFA, relating to the rules applicable for the appointment and substitution of directors, of the statutory auditors as well as for amendments to the Articles of Association, if they are different to legislative and regulatory rules, which can in any case be additionally applied, is illustrated in the sections of the Report dedicated to the Board of Directors (Section 4) and to the Board of

Statutory Auditors (Sections 12 and 13).

3. COMPLIANCE (ex Article 123-bis, paragraph 2, letter a), CFA)

With a view to the admission of its shares to trading on the MTA, the Company, firstly in the second half of 2005, and then afterwards, has always adopted all measures deemed necessary and/or appropriate to adapt its corporate governance system to the application criteria included by the Corporate Governance Code in the versions in force from time to time.

The Code can be viewed on the web site of Borsa Italiana S.p.A. (<https://www.borsaitaliana.it/comitato-corporate-governance/codice/codice.en.htm>).

In compliance with the regulatory requirements, the Report includes a general description of the corporate governance system adopted by the Company and information of the ownership structure as well as on the adoption of the Code, according to the “comply or explain” principle, set in the section “Main principles and temporary regime”.

* * *

It is pointed out that neither the Company nor its strategically important subsidiaries are subject to non-Italian legal requirements that influence their corporate governance structure.

4. BOARD OF DIRECTORS

4.1. APPOINTMENT AND SUBSTITUTION (ex Article 123-bis, paragraph 2, letter I), CFA)

Once the Shareholders' Meeting has decided the number of directors to be elected, the procedures are as follows:

1) all the Directors requiring election, but one, shall be elected from the list obtaining the highest number of votes ("Directors Majority List"), in the sequential order in which they appear on that list;

2) one Director shall be elected, in compliance with statutory provisions, from the list obtaining the second highest number of votes ("Directors Minority List"), which shall not be associated in any way, even indirectly, with the individuals/entities who presented and/or voted for the Majority List; the Director elected in this case shall be the candidate at the head of this list. However, if not even one independent Director is elected from the Directors Majority List, then the first independent Director appearing on the Directors Minority List shall be elected in place of the candidate at the head of this list.

In the event of a tie, the entire Shareholders' Meeting will vote again until an unequivocal result is achieved.

The Chairman of the Board of Directors shall be the first candidate appearing on the Directors Majority List.

No account is taken of lists that obtain a percentage of votes corresponding to less than half of that required by this Article for their presentation.

If only one list is presented, or admitted to voting, the Shareholders' Meeting shall vote on this. If this list obtains the required majority vote, the number of directors established by the Shareholders' Meeting shall be elected from it in the sequential order in which the candidates appear therein and subject to compliance, if and until expressly provided by mandatory law and/or regulatory provisions, with the required balance between genders (masculine or feminine) within the Board of Directors.

The Directors Majority List or the only list (as the case may be) shall ensure compliance with the applicable pro tempore legislation and regulations in force regarding balance between genders. In particular, if the composition of the managing body, determined on the basis of the sequence numbers assigned to the candidates of such list, does not include a sufficient number of components of the underrepresented gender (masculine or feminine) – taking also into account, in case of the Directors Majority List, the gender (masculine or feminine) of the candidate elected by the Directors Minority List -, candidates having the lowest sequence number, belonging to the mainly represented gender (masculine or feminine) will be automatically replaced by candidates of the underrepresented gender (masculine or feminine) with the highest sequence number, until the minimum quota required by the applicable pro tempore legislation and regulations in force regarding balance between genders. has been reached.

If no list is presented or the list(s) presented contain(s) a number of candidates (also in terms of underrepresented gender, masculine or feminine) not sufficient to elect the entire managing body, the Board of Directors or, as appropriate, the additional Directors to be elected in order to reach the number of members of the Board of Directors established by the Shareholders' Meeting, shall be appointed by same Shareholders' Meeting with the voting majorities required by law. In each case, it shall be carefully ensured the presence within the Board of Directors of the necessary number of members having all the requirements set forth by applicable laws and regulations, who shall also be selected in such a way as to ensure the presence in the Board of Directors of the minimum quota required by the applicable pro tempore legislation and regulations in force regarding balance between genders.

Article 15)

If one or more directors should vacate office during the year, the following procedures shall be adopted for their replacement in accordance with Article 2386 of the ICC:

a) the Board of Directors shall appoint replacements by way of co-option of individuals belonging to the same list of the resigned Directors; the next Shareholders' Meeting shall vote with the legally required majorities, in compliance with the same principle and nonetheless ensuring that the Board of Directors contains the correct number of directors qualifying as independent required by current statutory and regulatory provisions. If and until expressly provided by mandatory law and/or regulatory provisions, the Board of Directors shall appoint replacements of the same gender (masculine or feminine) of the ceased Directors, so to ensure the compliance with the applicable pro tempore legislation and regulations in force regarding balance between genders, having also care to ensure that the Board of Directors contains the correct number of Directors having the independency requirements set forth by current statutory and regulatory provisions.

The Shareholders' Meeting, in confirming/replacing the coopted Directors or, in the absence of co-option, in directly proceeding with the appointment of replacements, resolves with the voting majorities set forth by law, having however care of complying with the same principles referred above;

b) if the list no longer contains previously unelected candidates, the Board of Directors shall make the replacement without observing the procedure set out in point (a) above. Similarly, the related vote by the next Shareholders'

Meeting, again with the legally required majorities, shall nonetheless ensure that the Board of Directors contains the correct number of Directors qualifying as independent required by current statutory and regulatory provisions and, if and until expressly provided by mandatory law and/or regulatory provisions, the required number of Directors belonging to the underrepresented gender (masculine or feminine).

If two or more Directors resign or leave the Board of Directors for any other reason, the entire Board will be considered replaced from the date on which the new Board takes office.

With regards to the Board of Directors' composition, the Company is not subject to any additional rules, other than those set forth under the CFA.

It is pointed out that, as regards the year 2018, during which the Shareholders' Meeting that elected the Board of Directors was held, the shareholding pursuant to Article 144-quater of the Issuers' Regulation, had been fixed by the CONSOB at 4.5% (resolution 20273 of January 24, 2018).

Plan for the succession

The Board of Directors held on March 13, 2019, upon the proposal of the Remuneration and Nomination Committee, resolved not to adopt a succession plan for the following reasons: (a) the particular structure of the Company's shareholding, which favours rapid decisions in the turnover of the executive directors; (b) the presence within the Board of members with competence, professionalism and knowledge of the Company, such as to make them able to make up to the ordinary and extraordinary management of the Company until new appointment and conferment of powers; and (c) the overall system of delegations and powers of attorney adopted by the Company which mitigates the risk of management gaps and ensures business continuity.

4.2 MEMBERSHIP (ex Article 123-bis, paragraph 2, letter d), CFA)

In accordance with the terms established by Principle 2.P.1. of the Code, the Company's Board of Directors consists of executive and non-executive directors who meet all the requirements of professionalism, the expertise and the experience necessary to perform their duties. It is also pointed out the current composition of the Board of Directors is in line with the law in force on balance between genders.

In particular, the Company is administered by a Board of Directors consisting of six to fifteen members, who need not be shareholders.

On April 24, 2018 the Ordinary Shareholders' Meeting elected the current Board of Directors for the financial years (FYs) 2018-2019-2020 via list voting as established by the Articles of Association and, more precisely, until the Shareholders' meeting convened to approve the financial statements as at December 31, 2020.

On that occasion three lists were presented: (1) List no. 1, filed by the shareholder Multibrands Italy B.V., owner, at the time of said filing, of no. 26,073,783 ordinary shares of the Company, representing, at the time of said filing, 41.69% of the corporate capital entitled to vote at the Meeting consisting of: Eugenio Razelli, Angelo Trocchia, Melchert Frans Groot, Jeffrey A. Cole, Robert Polet, Ines Mazzilli, Cinzia Morelli-Verhoog, Catherine Gérardin-Vautrin and Gerben van de Rozenberg; (2) List no. 2, filed by BDL Capital Management (managing the funds BDL Rempart Europe and BDL Convictions), owner at the time of said filing, of no. 5,926,678 ordinary shares of the Company, representing, at the time of such filing, 9.46% of the corporate capital entitled to vote at the Meeting consisting of Guido Guzzetti; and (3) List no. 3, filed by the shareholders Only 3T S.r.l. in liquidation, owning, at the time of said filing, a total of no. 4,823, 683 ordinary shares of the Company, representing, at the time of such filing 7.70% of the share capital entitled to vote at the Meeting, consisting of Massimiliano Tabacchi.

List no. 1 obtained 62.369836% of the votes in relation to share capital voting at the Shareholders' Meeting, list no. 2 obtained 25.755317% of votes in relation to share capital voting at the Shareholders' Meeting and list no. 3 obtained 11.871360% of the votes in relation to share capital voting at the Shareholders' Meeting.

The following candidates therefore were elected to the Board of Directors: Eugenio Razelli, Angelo Trocchia, Melchert Franz Groot, Jeffrey A. Cole, Robert Polet, Ines Mazzilli, Cinzia Morelli-Verhoog, Catherine Gérardin-Vautrin, Guido Guzzetti. In addition, on April 24, 2018, the Board of Directors appointed Angelo Trocchia as Chief Executive Officer.

For more information on the appointment of the current Board of Directors, reference should be made to the press releases and the documentation drawn up according to the applicable law, which is available on the Website in the Investor Relations section.

Table 2 shows the membership of the Board of Directors at the end of the Financial Year on December 31, 2019.

The Directors' *curricula vitae*, which detail the positions held in other companies, particularly in other companies listed on regulated markets (including foreign markets), and in financial, bank, insurance or large companies, identified according to the criteria established by the Board of Directors, are available on the Website in the IR/Corporate Governance section and are annexes to the present Report.

Policy on Diversity (Board of Directors)

Pursuant to Article 123-bis, paragraph 2, letter d-bis) of CFA, the Board of Directors of the Company, upon proposal of the Remuneration and Nomination Committee, adopted on December 10, 2018 a diversity policy of the Board of Directors ("**BOD Diversity Policy**") describing the Board of Directors' composition features deemed optimal for allowing it to perform its duties in the most efficient way, taking decisions which may benefit from the contribution of a variety of qualified views so that the issues under discussion are considered from different perspectives.

The Company's Board of Directors believes that the following criteria should be followed with regards to its composition:

- (i) the majority of Directors should be non-executive: non-executive Directors enrich the Board's discussion with competences formed outside the Company which contribute to nourish the dialectics that is the distinctive precondition for a meditated informed corporate decision;
- (ii) at least a third of the Board of Directors, both upon its election and during the term, should be composed by Directors of the less represented gender, also in the future after the provisions of the law on gender balance cease to be in force and this will become a recommendation under the Code of Corporate Governance of Borsa Italiana; where the application of gender division criteria does not result in a whole number of members of the Board of Directors belonging to the less represented gender, this number is rounded up;
- (iii) taking into account the Group's business, it is recommended that Directors have preferably gained competences in economic, financial, accounting, risk management, marketing, digital innovation or sustainability matters, such as to ensure a mix of different and complementary skills and experiences; the international profile, assessed on the basis of the managerial, professional or institutional activities carried out in an international context by directors (regardless of nationality), is likewise considered important;
- (iv) diversity in relation to age is not deemed an important aspect to be taken into account as the composition of the Board of Directors with different managerial and professional profiles already allows a balanced plurality of perspective while, in relation to tenure, considering the complexity of the eyewear industry and of the different market needs, the continuity and the specific knowledge acquired is considered an important added value.

The Company's BOD Diversity Policy primarily intends to guide the submission of lists of candidates by the shareholders upon renewal of the entire Board of Directors and the expressions of the related vote in the Shareholders' meeting.

The BOD Diversity Policy will be taken into account by:

- 1) the Remuneration and Nomination Committee, whenever it is called (i) to express opinions to the Board of Directors regarding the size and composition of the same and to submit recommendations with regard to the managerial and professional profiles necessary within the Board and (ii) to propose to the Board of Directors candidates for the Board itself pursuant to the applicable provisions of the Committee's Regulations and in compliance with the relevant provisions of the Articles of Association;
- 2) the Board of Directors, on the occasion of reporting its view to shareholders on the managerial and professional profiles deemed appropriate for the composition of the Board of Directors, prior to its nomination, taking into account

the outcome of the board review process carried out every year pursuant to Article 1.C.1, letter g) of the Code.

Maximum number of offices held in other companies

In compliance with the Application Criterion 1.C.3. of the Code, the Board of Directors of August 2, 2018 expressed its opinion on the maximum number of positions as director or statutory auditor held in other listed companies (including foreign markets) and at financial, bank, insurance or large companies (namely those whose total assets or turnover exceed Euro 500 million) that could be compatible with effective performance of office as a director of the Company.

In particular, the Board of Directors deemed it compatible with effective performance of the office of director of the Company the following roles:

- for the Chief Executive Officer: to hold a maximum of 2 non-executive roles to be accepted in consultation with the Remuneration and Nomination Committee whether complementary and synergistic with his executive roles within the Group;
- for non-executive directors: to hold a maximum of 7 roles as non-executive director, independent director or statutory auditor and 2 executive roles (including their role in the Company and companies of the Safilo Group), considered in their discretion compatible with the performance of their duties, taking also into account their participation in the internal committees of the Company.

The Board also set a prohibition from interlocking directorship for the Chief Executive Officer (i.e. prohibiting him from being a director in a company - other than a company of the Safilo Group - where another director of the Company serves as Chief Executive Officer).

We specify that the number of roles of each of the current members of the Board of Directors complies with the above-mentioned criteria.

Induction programme

The Company implements initiatives aimed at increasing the knowledge of the members of the Board of Directors and of the Board of the Statutory Auditors, of the corporate operations and dynamics, including – for instance – visits to the other Group companies of strategic importance or to the main plants. With reference to an update on the legal and self-governance framework, these items are discussed during the meetings of the Board of Directors.

4.3. ROLE OF THE BOARD OF DIRECTORS (ex Article 123-bis, paragraph 2, letter d), CFA)

In accordance with Principles 1.P.1 and 1.P.2. of the Code, the Company is governed by a Board of Directors, which plays a central role in its corporate governance system, in particular in organising, orienting and managing the Company in order to accomplish the corporate purpose, maximise shareholder value over a medium/long term – and also in view of sustainability - and ensure that the expectations of the stakeholders are met.

Pursuant to Article 17 of the Articles of Association, the Board of Directors meets whenever the Chairman deems it necessary, or when so requested by at least two of its members, or by a Chief Executive Officer or by at least one member of the Board of Statutory Auditors.

It is established that meetings of the Board of Directors are to be held at least four times a year, at intervals not exceeding a quarter, and whenever the Chairman deems it necessary or a request is made as specified above.

Pursuant to Article 20 of the Articles of Association, the Board of Directors is vested with the widest powers for the ordinary and extraordinary management of the Company without any limitation, except for the matters reserved by law as the prerogative of the Shareholders' Meeting. Furthermore, pursuant to Application Criterion 1.C.1. of the Code, it was firstly decided with the resolution of March

23, 2007, as subsequently amended, that the Board of Directors should:

- (1) examine and approve the strategic, business and financial plans of the Company and the Group that it heads, monitoring its implementation, define the Company's corporate governance system and the Group's structure;

- (5) after examining the proposals of the Remuneration and Nomination Committee and consulting with the Board of Statutory Auditors, determine the compensation of the Chief Executive Officers and the directors provided with special assignments, pursuant to Article 2389 par. 3 of the ICC;
- (6) evaluate general operating performance and periodically compare actual versus planned results;
- (7) examine and approve in advance transactions of the Company and its subsidiaries, if the said transactions are of significant strategic, economic, capital or financial importance to the Company;
- (8) express its opinion, at least once a year, on the size, composition and performance of the Board of Directors and its committees. Taking into account the aforementioned evaluation, report to the shareholders, prior to the appointment of the new Board, an opinion on the professional and managerial figures whose presence on the Board is considered opportune;
- (9) supply information in the Corporate Governance Report about the procedures for application of the criteria established by the Code on the role of the Board, composition and performance of the Board;

Such deadline is normally met.

In relation to 2019, it is however pointed out that, taking into account that business needs required the calling with urgency of several meetings of the Board of Directors (i.e. with two-day notice), in those cases also the supply of the pre-meeting documentation was reduced to two days. In any case, the pre-reading documentation was always satisfactory and adequate enough to always enable the Board of Directors to take reasoned and informed decisions.

It is hereby finally pointed out that the pre-meeting documentation normally includes confidential information, the confidentiality of which is guaranteed by means of a dedicated platform for the upload of the Board of Directors' pre-reading material with access restricted by a password.

The TRP Regulations are available on the Website in the Investor Relations/Corporate Governance section.

* * *

Pursuant to Application Criterion 1.C.1. of the Code, the Board of Directors carries out, on a yearly basis, a process of self-appraisal of the size, composition and performance of the Board of Directors itself and of its Committee, taking into account certain aspects such as the professional competence, managerial experience and gender of its members, as well as their seniority as directors.

Starting from the Financial Year 2018, such self-appraisal process also took into account the diversity criteria established under Article 2 of the Code and formalized and implemented by the Company through the adoption of a Diversity Policy of the Board of Directors approved on December 10, 2018.

This process is performed on the basis of a questionnaire ("**Questionnaire**") prepared by Corporate and Legal Affairs Department and submitted to the individual directors, to assess both the operational efficiency of the Board of Directors and its committees and their effectiveness in pursuing their aims. The Questionnaire consists of two parts: the first relates to objective aspects such as the size, membership and operation of the Board of Directors and its committees, and the second to the aspects on which directors are asked to express their subjective opinion. The

Questionnaire permits assessment of the following macro-areas: 1) membership of the Board of Directors; 2) management of the meetings of the Board of Directors; 3) Board of Directors' committees functioning; 4) "internal" interactions, namely how relations between the Board of Directors and the Chief Executive Officer and, more generally, those between the Board of Directors and management work; and 5) "external" interactions, namely the workings of relations between the Board of Directors and the Company's stakeholders, i.e. shareholders, employees, customers, and suppliers, etc.

The Questionnaire also contains a final section aimed to highlight further possible topics, different from those examined in the other sections, to be submitted to the attention of the Chairman of the Board of Directors.

The Board of Directors, also for the Financial Year, has concluded the process of self-appraisal of its performance assessing it generally positive.

In carrying out the self-assessment process, the Board of Directors was supported by the Remuneration and Nomination Committee, no external advisor was involved in the process.

It is pointed out that the Shareholders' Meeting did not authorize, in a general and preventive manner, any exception to the non-competition rule set forth under Article 2390 of the ICC.

It is specified that there is not any interlocking directorate situation.

Chairman of the Board of Directors

The Board of Directors appointed Eugenio Razelli as Chairman on April 24, 2018.

The Chairman of the Board of Directors is not assigned delegation of management functions.

* * *

Reports to the Board

In accordance with Application Criterion 1.C.1. letter d) of the Code, operationally delegated directors (i.e. executive directors) must report to the Board of Directors and the Board of Statutory Auditors about the activities performed, and transactions of the greatest economic significance, at the first possible meeting, at intervals not longer than a quarter. 4.6 INDEPENDENT DIRECTORS

As at December 31, 2019, the Board of Directors is composed of, in their capacity as independent directors, Catherine Gérardin-Vautrin, Guido Guzzetti, Ines Mazzilli and Cinzia Morelli-Verhoog.

When the candidate lists were submitted, and then at the Board of Directors meeting held on April 24, 2018 after the Shareholders' Meeting that appointed them, the above-mentioned directors and the director Jeffrey A. Cole declared that they satisfied the requirements to be qualified as independent directors pursuant to Article 3 of the Code and Articles 148 paragraph 3 and 147-ter paragraph 4 of the CFA.

Such information was disclosed to the marked by means of a press release on April 24, 2018.

The Board of Directors, in addition to evaluating, at the earliest possible opportunity after its appointment, the meeting of the independence requirements provided by the Code for each non-executive director, periodically checks the independence of the non-executive directors by applying all the Code's criteria; for the purpose of the said periodical evaluation, it has established that the independent directors must submit to the Board of Directors and the Board of Statutory Auditors an annual written declaration certifying that they still meet the requirements which allowed them to be classed as independent at the time of their appointment.

It is hereby pointed out that, on February 22, 2019, the Director Jeffrey A. Cole declared that, starting from March 29, 2019 he no longer qualified as an independent director as, even though he still met the legal requirement set forth under Article 147 ter, paragraph 4, of CFA, he no longer met the requirements set forth under Article 3 of the Code being a director of the Company for more than nine years in the last twelve years.

At the meeting held on March 11, 2020, the Board of Directors received the above-mentioned written declarations from the independent directors and, confirmed that the requirements of independence are still met by the directors Catherine Gérardin-Vautrin, Guido Guzzetti, Ines Mazzilli and Cinzia Morelli-Verhoog also for the Financial Year, by applying all the Code's criteria.

* * *

The Board of Statutory Auditors has checked that the criteria and investigation procedures used by the Board to evaluate the independence of its members (Application Criterion 3.C.5.) are correctly applied and expressed a favourable opinion.

During the Financial Year the independent directors met once, on March 12, 2019.

The Company did not deem advisable to appoint a “lead independent director”.

5. PROCESSING OF COMPANY INFORMATION

These Regulations were amended and integrated, respectively by the resolution of the Board of Directors of the Company held on August 4, 2015, on August 3, 2016, and August 2, 2017.

Lastly, in the light of the evolution of the related legal framework, and following the approval of two new stand-alone Internal dealing procedures and the repeal of Section I/B of the Internal Regulations as approved by the Board of Directors on April 30, 2019, the Board of Directors approved, on November 12, 2019, a new “Procedure for the Management and Dissemination of Inside Information” replacing the previous Internal Regulations for Corporate Information and aiming to:

- take into account the Guidelines for the Management of Inside Information (“*Linee Guida – Gestione delle informazioni privilegiate*”), issued by Consob on October 2017;
- better clarify the internal procedures for the identification and management of relevant and inside information, also in terms of roles and responsibilities and information flows;
- simplify the structure of the different phases of management of relevant and inside information; and
- better align the procedure for the management of the Insider List to the Market Abuse regulatory framework and the related implementing rules.

A copy of the said Regulations is available on the Website in the IR/Corporate Governance section (<http://investors-it.safilogroup.com/corporate-governance/governance-documents>).

6. BOARD OF DIRECTORS’ COMMITTEES (ex Article 123-bis, paragraph 2, letter d), CFA)

In a resolution dated September 14, 2005, the Board of Directors, pursuant to Articles 10.1 and 8.1 of the Corporate Governance Code of 2002, set up the Internal Control Committee and the Remuneration Committee.

The Board of Directors, on December 6, 2012 pursuant to the Code requirements, (i) established a nomination committee, that was merged, pursuant to Article 4 of the Code, with the already established Remuneration Committee, which, for that, was renamed as “Remuneration and Nomination Committee”, and (ii) renamed the Internal Control Committee as “Control and Risk Committee”. Furthermore, the Board, on December 13, 2016, within the framework of the implementation of the amendments to the Code re-named the Control and Risk Committee “Control Risk and Sustainability Committee”.

Both these committees were lastly newly appointed on April 24, 2018 after the meeting that elected the current Board of Directors.

As far as the Transactions with Related Parties Committee is concerned, please make reference to Section 11 “Directors’ interests and related-party transactions”.

No committees other than those envisaged by the Code have been set up.

7. REMUNERATION AND NOMINATION COMMITTEE

As at December 31, 2019 the Remuneration and Nomination Committee had 3 members, the majority of which independent: two independent and non-executive directors, Catherine Gérardin-Vautrin (Chairman) and Cinzia Morelli-Vehoog, and a non-executive director, Jeffrey A. Cole, possessing accounting and financial and/or remuneration policy experience considered adequate by the Board at the time of their appointment.

It is pointed out that, starting from March 29, 2019 the director Jeffrey A. Cole no longer qualified as an independent director pursuant to Article 3 of the Code. Every shareholder entitled to vote may vote for only one list, including through a third party or trust company.

The third standing member and the second alternate member shall be taken from the list obtaining the second highest number of votes and presented and voted by entitled individuals/entities who are not associated with the majority shareholders as defined by par. 2, Article 148 of Decree 58/1998 ("Statutory Auditors Minority List"). The first and second candidates appearing on this list shall be elected in the sequential order in which they appear therein.

In the event of a tied vote, further ballots shall be taken involving the entire Shareholders' Meeting in order to obtain an unequivocal result.

The Shareholders' Meeting shall appoint the standing member elected on the Statutory Auditors Minority List as the Chairman of the Board of Statutory Auditors.

Without prejudice to the above, the provisions of law and regulations in force from time to time apply to the presentation, deposit and publication of the lists, including in the cases where only one list is presented, or the lists are presented by shareholders associated one with the others as per par. 2 of Article 148 of Decree 58/1998.

In any event, even if only one list has been presented or admitted to voting, the candidates on this list shall be appointed as standing statutory auditors, in compliance, if and until expressly provided by mandatory law and/or regulatory provisions, with the required balance between genders (masculine or feminine, and alternate statutory auditors in accordance with the sequential number in which they appear in the respective sections of this list.

The Statutory Auditors Majority List or the only list (as the case may be) shall ensure compliance with the applicable pro tempore legislation and regulations in force regarding balance between genders.. In particular, if the composition of the controlling body, determined on the basis of the sequence numbers assigned to the candidates of such list, does not include a sufficient number of candidates of the underrepresented gender (masculine or feminine) - taking also into account, in case of the Statutory Auditors Majority List, the gender (masculine or feminine) of the candidate elected by the Statutory Auditors Minority List -, candidates having the lowest sequence number, belonging to the mainly represented gender (masculine or feminine), will be automatically replaced by candidates of the underrepresented gender (masculine or feminine) with the highest sequence number, until the minimum quota required by the applicable pro tempore legislation and regulations in force regarding balance between genders has been reached.

If no list is presented or if it is not possible to appoint one or more statutory auditors using the list voting system, the Shareholders' Meeting shall decide with the majorities required by law and ensuring, in any case, the presence of the required number of members belonging to the underrepresented gender (masculine or feminine) between the standing members of the Board of Statutory Auditors, such as to comply with the applicable pro tempore legislation and regulations in force regarding balance between genders..

C) Replacement

In the event of having to replace a statutory auditor, the replacement shall be an alternate statutory auditor belonging to: (i) the same list and (ii) if and until it is necessary in order to ensure the proportion between genders (masculine and feminine) required by the applicable pro tempore legislation and regulations in force regarding balance between genders, the same gender as the ceased statutory auditor, in the order specified therein.

This is without prejudice to other replacement procedures established by current statutory or regulatory provisions.

The Shareholders' Meeting called under par. 1, Article 2401 of the ICC shall make the appointment or replacement in compliance with the principle of having the required minority representation and, if and until it is necessary, in order to ensure the balance between genders (masculine and feminine) within the Board of Statutory Auditors, in compliance with the applicable pro tempore legislation and regulations in force regarding balance between genders.

The powers, duties and term in office of the statutory auditors are those established by law.

The statutory auditors may, individually or jointly, request the Board of Directors to provide details and explanations about the information they have received and about general business trends or specific transactions, and may carry out inspections and controls at any time.

Members of the Board of Statutory Auditors may not hold similar appointments in more than five companies that are quoted on the stock exchange. The statutory auditors shall comply with the limits on the number of appointments as a

director or statutory auditor established by Article 148-bis of Decree 58/1998 and related regulations for its implementation.

No standing or alternate statutory auditor may be a director or employee of companies or entities that control the Company; this is without prejudice to the other limitations on the number of appointments that may be held under current statutory or regulatory provisions.

Meetings of the Board of Statutory Auditors may be held via teleconference or videoconference, in accordance with the terms stated in Article 17.

On the occasion of the appointment of the Board of Statutory Auditors two lists were submitted: (1) List no. 1, submitted by the shareholder Multibrands Italy B.V., composed by: Mr Franco Corgnati, Ms Bettina Solimando and Mr Yuri Zugolaro, as effective Auditors, and Ms Marzia Barbara Reginato and Mr Luca Valdameri, as deputy auditors; and (2) List no. 2, having no connections with List no. 1, submitted by the shareholder Only 3T S.r.l., composed by: Ms Carmen Pezzuto, as effective Auditor, and Mr Gianfranco Gaudioso, as deputy Auditor.

List no. 1 obtained 79.076967% of the votes, calculated on the share capital voting at the Meeting, while List no. 2 obtained 20.903102% of the votes, calculated on to the share capital voting at the Meeting.

Policy on Diversity (Board of Statutory Auditors)

Pursuant to Article 123-bis, paragraph 2, letter d-bis) of CFA, on December 10, 2018, the Board of Directors of the Company, upon proposal of the Remuneration and Nomination Committee and with the favorable opinion of the Board of Statutory Auditors, adopted a diversity policy for the Board of Statutory Auditors ("**BSA Diversity Policy**"), , describing the Board of Statutory Auditors' composition features deemed optimal for allowing it to discharge its supervisory tasks in the most effective way, taking decisions which may benefit from the contribution of a variety of qualified views so that the issues under discussion are considered from different perspectives.

The Company's Board of Directors believes that the following criteria should be followed with regards to the composition of the Board of Statutory Auditors:

- (i) at least a third of the Board of Statutory Auditors, both upon its election and during the term, should be composed by Statutory Auditors of the less represented gender, also in the future after the provisions of the law on gender balance cease to be in force and this will become a recommendation under the Corporate Governance Code of Borsa Italiana; it is also deemed important to ensure that at least a third of the alternate Statutory Auditors is represented by persons of the less represented gender. Where the application of gender division criteria does not result in a whole number of members of the Board of Statutory Auditors belonging to the less represented gender, this number is rounded up;
- (ii) a balanced combination of tenure should be ensured within the Board of Statutory Auditors, in order to strike a balance between continuity and innovation needs in the management;
- (iii) Statutory Auditors should have professional and/or academic and/or institutional profiles such as to ensure a mix of different and complementary skills and experiences that, due to their characteristics, could allow an optimal fulfillment of the supervisory functions assigned to the Statutory Auditors;
- (iv) it would be recommended that most members of the Board of Statutory Auditors have gained competence in areas of activities relevant to those of the Company;
- (v) diversity in relation to age is not deemed an important aspect to be taken into account as the composition of the Board of Statutory Auditors with different professional and/or academic and/or institutional profiles already allows a balanced plurality of perspectives.

The BSA Diversity Policy intends to guide the submission of lists of candidates by the shareholders upon renewal of the entire Board of Statutory Auditors and the expressions of the related vote in the Shareholders' meeting.

* * *

As prescribed in Application Criterion 8.C.1. of the Code, applied all the criteria envisaged for directors by the Code, the Board of Statutory Auditors reviewed the independence of its members both on the first possible occasion after their appointment and during the FY in question, confirming respectively that each one of them met and continued to satisfy these requirements.

It is pointed out that, with reference to Mr. Franco Corgnati, who has been a Statutory Auditor of the Company since

2005, during the Financial Year, the Board of Statutory Auditors confirmed its positive evaluation on his independence, based on the considerations already made on the occasion of his appointment, such considerations being the following:

- He has always been a statutory auditor in companies different from Safilo in terms of business sector and size;
- In carrying out his activity he has always demonstrated his independence in compliance with the Code of Ethics of the Italian Order of Chartered Accountants;
- He has always abstained from working as advisor of the Company and its subsidiaries;
- He has avoided spending time and meeting with the Company's directors and management if unnecessary;
- Starting from 2010, the Company has seen a remarkable turnaround in terms of ownership structure, management and members of the Board of Directors.

* * *

With regard to Application Criterion 2.C.2, all members of the Board of Statutory Auditors possess in-depth knowledge of the situation and operating dynamics of the Company and the Group. The number of Board of Statutory Auditors meetings, and the participation of its members at Board of Directors and at the Company's internal committees guarantee that the Statutory Auditors are continuously updated on the situation of the Company and the market. Moreover, during the meetings of the Board of Directors, the management illustrates material information on the performance of the Company and the Group by providing a continuous flow of information on, inter alia, the principal changes in the applicable statutory and regulatory framework and their impact on the Company.

In accordance with Application Criterion 8.C.4, the remuneration of the statutory auditors is proportional to the commitment required of them and to the importance of the position held, as well as to the Company's size and sector.

* * *

The Issuer establishes that a statutory auditor who, on his own account or that of others, has an interest in a specific transaction of the Issuer, must promptly and exhaustively inform the other statutory auditors and the Chairman of the Board of Directors with regard to the nature, terms, origin and scope of his/her interest (Application Criterion 8.C.5.).

In the performance of its duties, the Board of Statutory Auditors usually coordinates with the Internal Audit function and the Control Risk and Sustainability Committee (Application Criteria 8.C.6. and 8.C.7.) by means of a constant exchange of information and periodic meetings.

The Board of Statutory Auditors functions as "*comitato per il controllo interno e la revisione contabile*" pursuant to Article 19 of Italian Legislative Decree no. 39 of January 27, 2010.

17. CHANGES SINCE THE END OF THE FINANCIAL YEAR 2019

No changes have occurred since the end of the Financial Year 2019.

18. CONSIDERATIONS ON THE LETTER DATED DECEMBER 19, 2019 OF THE PRESIDENT OF THE CORPORATE GOVERNANCE COMMITTEE

The recommendations contained in the letter dated December 19, 2019 of the President of the Corporate Governance Committee were brought to the attention of the Board of Directors on March 24, 2020 upon previous evaluation of the Control Risk and Sustainability Committee (on February 24, 2020) and the Remuneration and Nomination Committee (on March 17, 2020) for the topics of respective competence.

During that meeting the Board of Directors of the Company evaluated, in relation to each critical area identified in the above-mentioned letter, the Company's status quo, as well as some possible actions in order to improve the compliance with the recommendations, in particular:

- in relation to the recommendation of **integrating the sustainability of the business activity into the definition of strategies**, the Board of Directors confirmed that the Company has already, on a voluntary basis, entrusted the Control Risk Committee with Sustainability tasks and functions; in addition, sustainability has been included in the new Group Business Plan 2020-2024 as one of the Group's four main strategies over the coming years. During 2020–2021 the Group will focus on ensuring compliance with the sustainability requirements of the specific applicable laws, and thereafter from 2022 onwards aim at anchoring sustainability in the Group's way of doing business with a detailed set of choices, capabilities and action plan to be defined during 2021. Nevertheless, certain actions have been already identified and are under implementation, and include:
 - the car policy extension to hybrid cars and/or electric cars;
 - adoption of eco-friendly POP material;
 - the launch of a new training on ESG topics in order to spread the culture of sustainability in everyday life and addressing step by step all levels of the organization;
 - a set of environmental impact initiatives (reduction of obsolescence, increase of utilization of sustainable materials in new eyewear collections, low energy consumption and low GHG emission as further criteria in the CapEx selection process),
 - the launch of projects to produce some eyewear capsule collection of selected brands with recyclable material (for example (i) Tommy Hilfiger models with Econyl, a regenerated nylon infinitely recyclable, and (ii) the Ocean Cleanup project for production of eyewear models with waste plastic materials collected from Pacific Ocean and then recycled (Great Pacific Garbage Patch).

The Company will therefore continue the journey of implementing sustainability actions and policies, in compliance with law 254/2016, while pursuing the key strategies to achieve business stability in a period of deep industry and company transformation;

- in relation to the recommendation of **integrating the sustainability of the business activity into the definition of remuneration policy**, having premised that, in compliance with the mandatory provisions under Article 123-ter, paragraph 3-bis, of the TUF, in the implementation of the Remuneration Policy, the Board of

Directors, on proposal by the Remuneration and Nomination Committee, will maintain the flexibility to temporarily derogate from linking the short and medium-long term variable component of remuneration of Executive Directors and Managers with Strategic Responsibilities to the achievement of certain Group performance targets as deemed necessary for the pursuit of the long-term interests and sustainability of the Company or to ensure its ability to stay on the market, including the maintenance of the management capability and commitment, the Remuneration Policy will maintain until at least 2021 the priority for quantitative financial performance objectives directly connected to the Company's medium-long term strategy for the recognition of variable components of the remuneration, taking into account the ongoing transformation of the Company and its aim to achieve stability within 2021 in line with its current key strategies. From 2022 the Company will evaluate including also certain non-financial KPI's consistent with those reported by the Group and subject to limited review by external auditors;

- in relation to the recommendation of **managing the information flows to the board of directors**, ensuring that the confidentiality requirements are protected without compromising the completeness, usability and timeliness of the information, the Board of Directors confirmed the adequate status quo of the Company, although highlighting the exceptional situation occurred in 2019, as detailed in paragraph 4.3 of this Report.
- in relation to the recommendation of applying with greater rigor the **independence criteria** defined by the Code, the Board of Directors agreed on the no-need to define ex-ante the quantitative and/or qualitative criteria to be used for the evaluation of the significance of the relations under examination, considering that the independence criteria have historically not been derogated, and in particular the absence of any relations (whether commercial, financial or professional) to be evaluated. Possible future situations will be therefore evaluated on a case by case basis.
- in relation to the recommendation of verifying that the **amount of compensation paid to non-executive directors and members of the controlling bodies** corresponds to the competence, professionalism and commitment required of their position, the Remuneration and Nomination Committee, taking into account the outcome of a benchmark analysis performed thorough an external consultant, has reported to the Board of Directors its evaluation on the adequacy of the remuneration of the members of the Board of Statutory Auditors and of non-executive directors, except for the remuneration paid to the non-executive Chairman which is not in line with the remuneration paid by comparable companies and in relation to which the Remuneration and Nomination Committee will make a proposal to the newly appointed Board of Directors in 2021.

ANNEX 1

Main characteristics of existing risk management and internal control systems in relation to the financial reporting process pursuant to Article 123-bis, paragraph 2, letter b) of the CFA

The Company considers the risk management system to be an integral part of the internal control system in relation to the financial reporting process. This system in fact aims to assure the reliability, accuracy, trustworthiness and timeliness of financial reporting.

Given this, since the coming into force of Italian Law 262/2005 the Company has implemented procedures designed to increase the transparency of financial reporting and make the system of internal controls more efficient and particularly those concerning financial reporting, of which they form part.

The methodological approach adopted by the Company to meet regulatory requirements and the responsibilities of the Manager responsible for preparing the Company's financial statements (*Dirigente Preposto*) is set out hereinafter.

As indicated in Section 10.5 of the Report, the Manager responsible for preparing the Company's financial statements (*Dirigente Preposto*) is responsible for certifying that the administrative and accounting procedures used to construct the separate annual financial report/consolidated annual financial report/half-yearly financial report:

- have been defined consistently with the Company's administrative and accounting system and its structure;
- have been subjected to assessment of appropriateness;
- have been effectively applied during the period to which the separate annual financial report/consolidated annual financial report/half-yearly financial report refers.

In order to be able to express an assessment of appropriateness, it has been necessary to identify a theoretical model of reference, so as to have criteria against which to make the assessment.

In view of the fact that Article 154-bis of the CFA does not explicitly refer to a specific model to use to assess the appropriateness of administrative and accounting procedures – and in order to meet the needs consequent to application of the rule in question – the Company has opted to apply a model universally recognised as being one of the most accredited, i.e. the COSO Report – Internal Control Integrated Framework.

By virtue of its widespread use, success and authoritativeness, the COSO Report has provided the starting point for several regulatory bodies, both Italian (the Bank of Italy and the ISVAP - Italian insurance regulator) and international (PCAOB, SEC and the Basle Committee) and is indicated as a sound basis of reference also by professional associations, including, in Italy, the ANDAF (the Italian association of financial and administration officers) and the AIIA (the Italian association of internal auditors).

This model of reference permits assessment of the appropriateness of an internal control system with respect to three dimensions of analysis (Objectives, Components, and Context). For each of these it is necessary to select the aspects relevant for specific application of the model.

Based on the COSO Report – Internal Control Integrated Framework, the Company has implemented a model (hereinafter "Model 262" referring to the Italian law involved) that permits assessment of the appropriateness of the internal control system in terms of achievement of various objectives, including the effectiveness and efficiency of processes, the reliability of financial reporting, and compliance with laws and regulations.

According to this Model 262, the elements in relation to which the Company assesses the appropriateness of the control system are as follows:

- "Control environment"

This means the corporate governance approach adopted by the Company and the Group and, in both of them, the people and tools dedicated to the organisation, assessment and auditing of the general internal control system, within which the reliability of financial reporting is one of the objectives.

- “Risk assessment”

Model 262 provides for identification of the risks of not achieving the objectives set, followed by identification of which control activities are present to reduce such risks. The control system is appropriate to the extent that risks are covered by control activities. In the specific case, the risks are those of unreliable financial reporting and can be classified in the following categories (the so-called “financial statement assertions”):

- *existence/occurrence*: assets and liabilities exist at a certain date and the transactions recorded represent events that really occurred during a given period;
- *cut-off*: the transactions and events have been attributed to the proper accounting period
- *completeness*: all transactions, assets and liabilities to be recorded have effectively been included in the financial statements;
- *accuracy*: transactions, assets and liabilities have been correctly calculated and recorded;
- *valuation or allocation*: assets, liabilities, shareholders’ equity, revenues and costs are recognised in financial statements at their correct amounts, in accordance with the appropriate GAAPs;
- *rights & obligations*: assets represent the Company’s rights and liabilities represent its obligations;
- *presentation & disclosure*: items in financial statements are properly named, classified and illustrated in financial reporting disclosure.

- “Control activities”

Control activities, designed to reduce the above risks, can be classified in several types, for example: preventive, investigative, manual, electronic, and so on. Among the control activities normally performed by personnel at various organisational levels, we indicate, where applicable, the following:

- *Top-management analyses*: performance achieved is compared with the budget, forecasts, with previous periods’ results and with competitors’ results. To the extent that these activities are used to check unexpected results revealed by the accounting system, they contribute to control of financial reporting;
- *Transaction controls*: these are performed to check the completeness, accuracy and authorisation of the entry in the accounting systems of transactions managed in business processes and of the related databases in the archives concerned;
- *Information system controls*: the heavy reliance on information systems, particularly as regards preparation of financial reporting, makes it necessary to keep them under control. Controls for information systems concern the development and maintenance of applications software, protection of accesses, operators’ activity, back-up procedures, and security plans, etc.;
- *Physical controls*: equipment, stocks, securities, cash and other assets are physically protected and an inventory periodically taken of them and compared with accounting data;
- *Segregation of tasks*: in order to reduce the risk of errors and irregularities, tasks are split between several people. For example, authorisation of transactions, their booking in accounts and management of the corresponding assets must be performed by different people;
- *Policies and procedures*: control activities are normally based on policies and procedures.

- “Information and communication”

Model 262 provides for appropriate information flows between the parties involved in the internal control system. In the specific case, these flows include communication of procedures to those concerned, exchanges of information between those playing a role in the corporate governance model, reporting on the progress of any improvements being made to the control system, and reporting on any anomalies found during the monitoring activities indicated below.

- “Monitoring”

Lastly, Model 262 envisages performance of assessments of the effective application of procedures and, in particular, of the control activities mentioned above.

Structured in this way, the Model 262 thus permits assessment of the appropriateness of an internal control system at various organisational levels (for example, at the levels of group, company, and process, etc). More specifically, controls can be performed on the basis of:

- Analysis of the Group, which aims to identify companies featuring complexities and levels of importance such as to bring them within the scope of the analysis;
- Analysis of business segments, which aims to identify the main business processes (according to the so-called "value chain" approach), mapping them with respect to Group companies, and to describe the main areas of accounts affected by such processes;
- Analysis of areas of accounts, which aims to assess their complexity from the qualitative standpoint, starting from the feeder business process, and from the quantitative standpoint, as regards the materiality of balances.

These preliminary analyses make it possible both to delineate the boundary of subsequent analyses of appropriateness and to plan their depth. For example, for areas of accounts featuring a low degree of complexity, analysis of the risks of unreliable financial reporting and of related control activities can be performed as part of the processes of period-end closure of accounts.

For areas of accounts that instead are highly complex, it may be necessary to add to this context analysis of feeder processes, in order to detect and assess the adequacy of controls of transactions recorded in accounts and that are involved in those processes.

As regards the heavy reliance on information systems, particularly as regards processing of financial reporting, the boundary of subsequent analyses of appropriateness normally include the processes of the Information Systems area.

The bodies and/or units involved in operation of the Model 262 and their related roles are indicated below:

- Control Risk and Sustainability Committee: as the body responsible for the functionality of the general control system, it is also required to express an opinion and, if necessary, take action vis-à-vis the Manager responsible for preparing the Company's financial statements (*Dirigente Preposto*) to ensure that the part of the internal control system dedicated to assuring the correctness of financial reporting is effective and actually operating;
- Manager responsible for preparing the Company's financial statements (*Dirigente Preposto*): he has the ultimate responsibility for ensuring that the control activities in place permit assurance of fair and complete financial reporting, which he himself certifies;
- Group Accounting and Corporate Reporting unit: the personnel appointed for this purpose coordinate and perform periodic tests to ensure updating and operation of the set of controls identified and necessary to assure the correctness of financial reporting;
- Internal Audit unit: double role as support of the Manager responsible for preparing the Company's financial statements (*Dirigente Preposto*) in the mapping and testing activity/operation as independent person who assesses the work of the above-mentioned Manager;
- Relevant Company people, process owners: they have the ultimate responsibility for updating the overall design of controls (flow charts and RCMs - Risk Control Matrixes) and for performing tests to check controls' effectiveness and their consistency with the design.
