Jeff Henrikson, "These spaces don't speak of beauty or chaos. They are loud with things, with life, with the evidence of having lived. They speak of presence - of someone showing up, again and again, to meet themselves.," *Study Magazine*, July 11, 2025

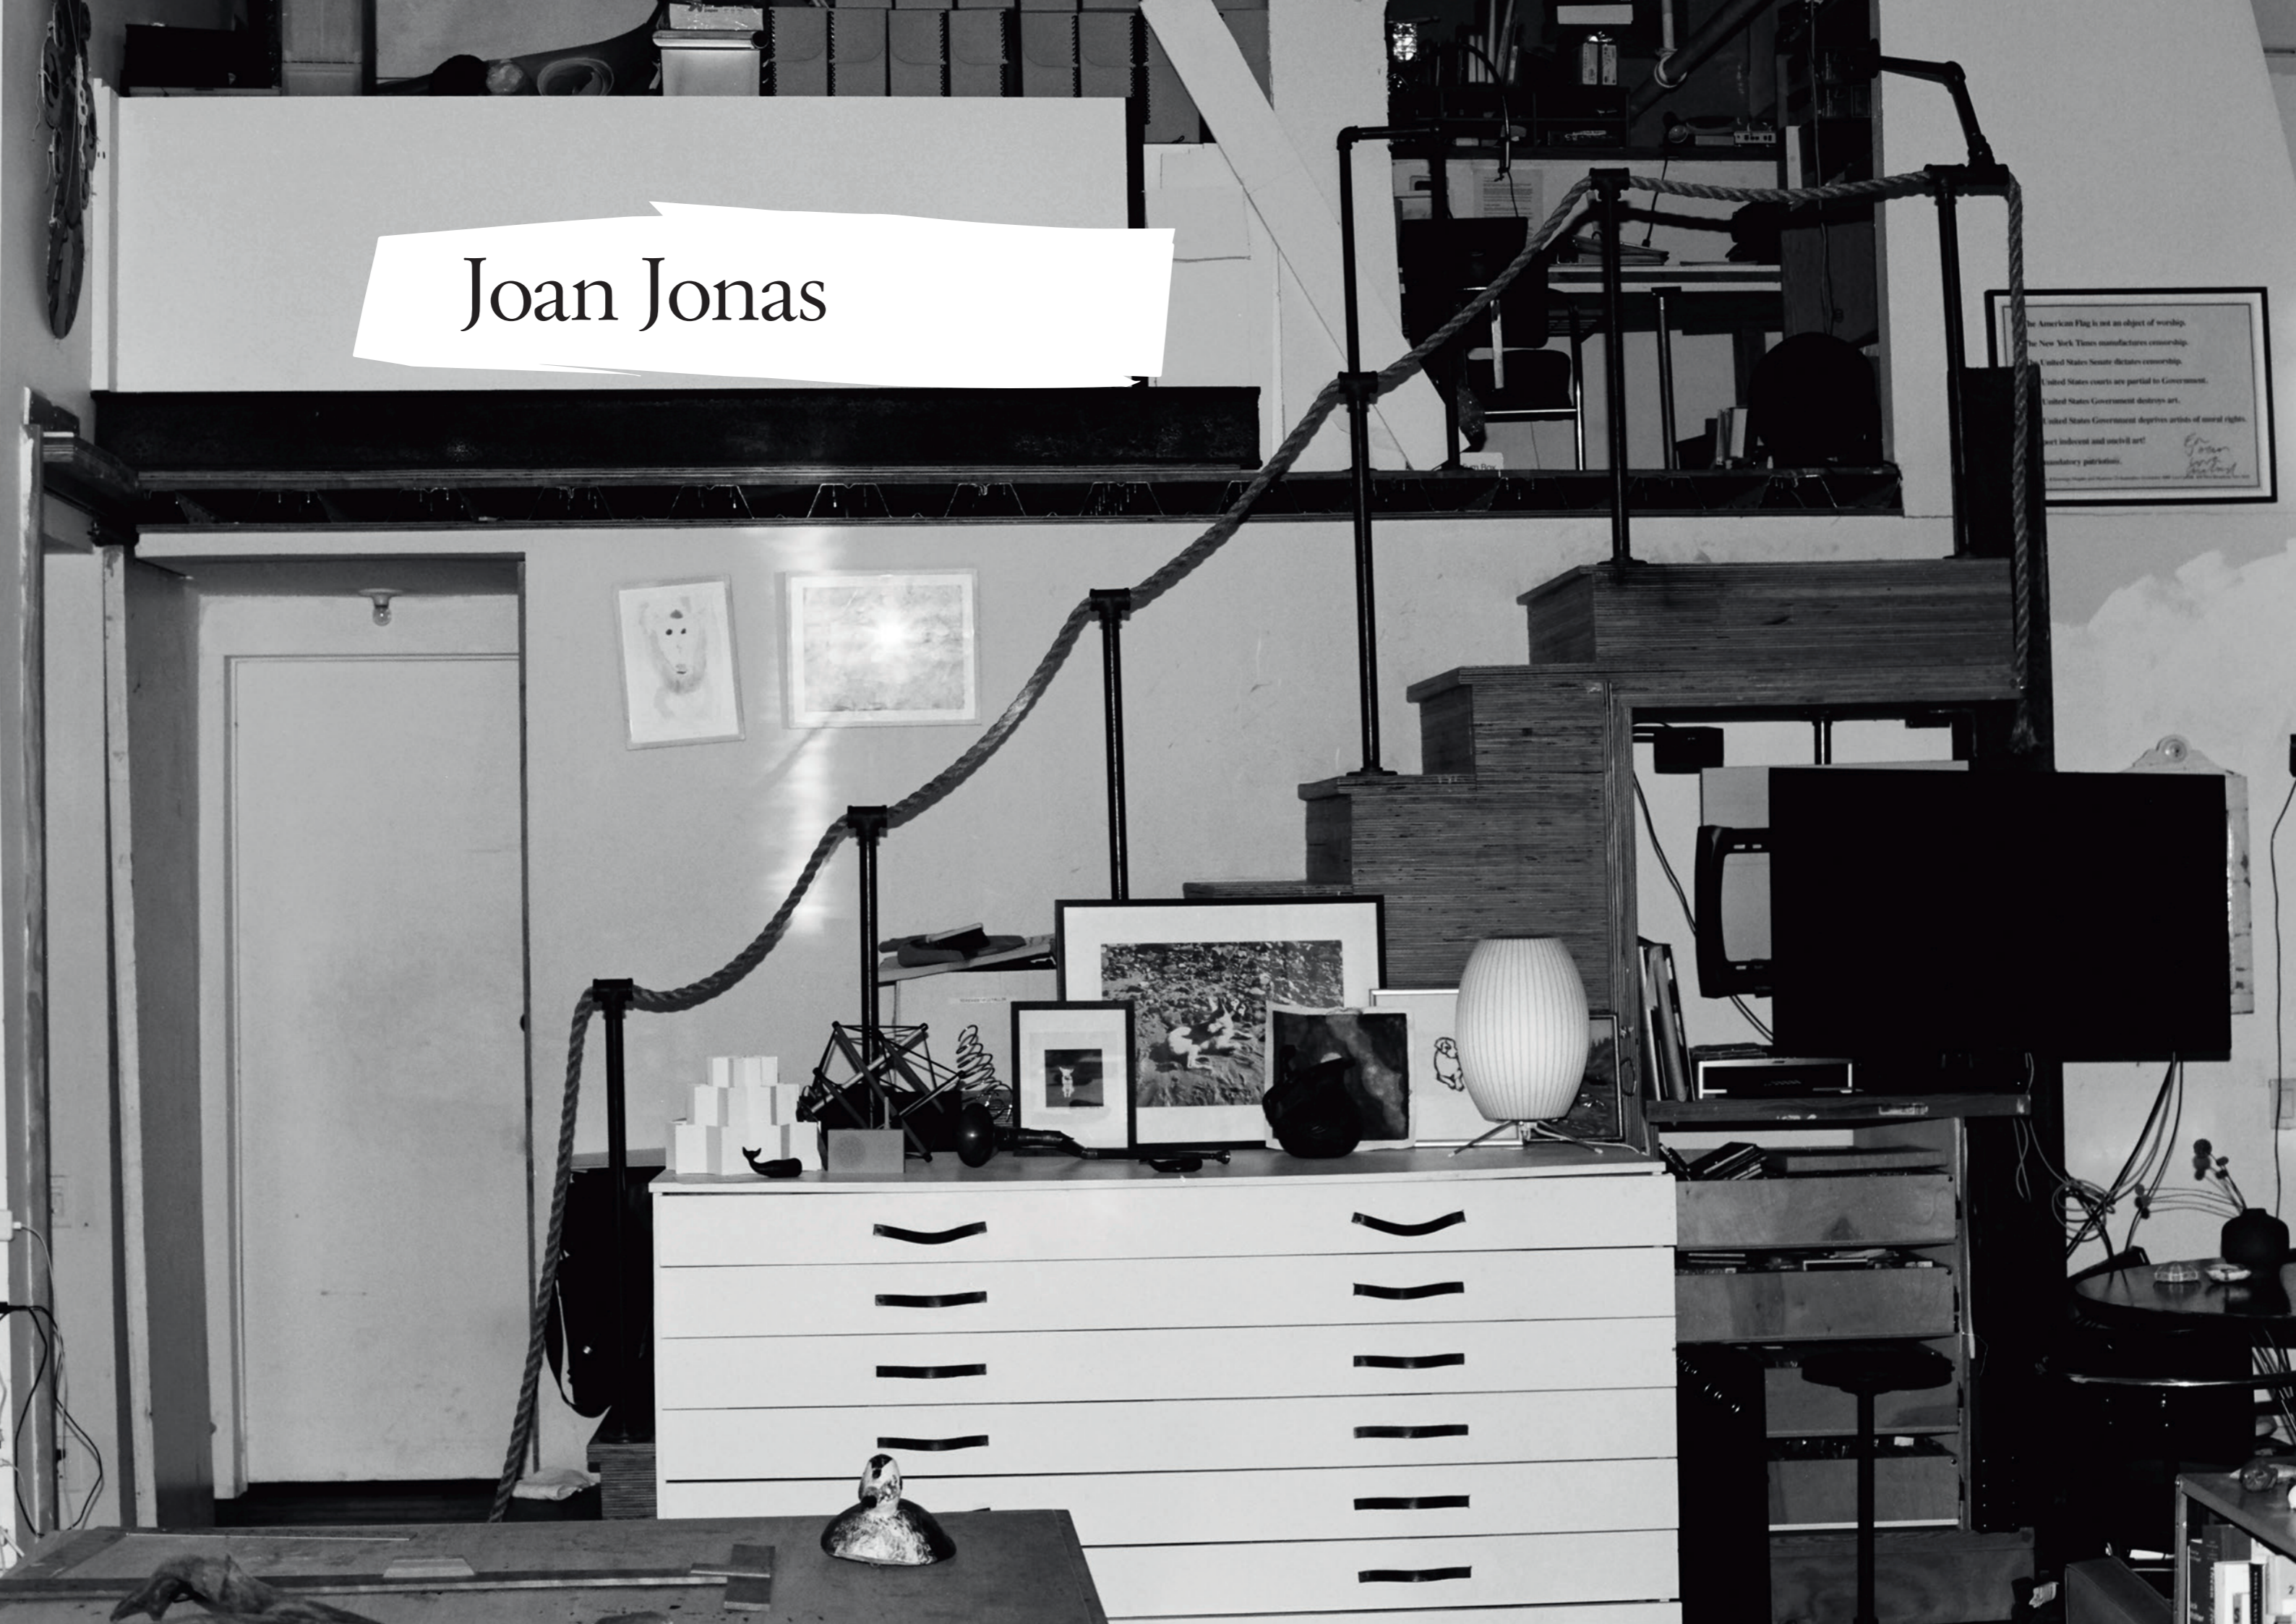

**These spaces don't  
speak of beauty  
or chaos.**

**They are loud  
with things,  
with life, with  
the evidence of  
having lived.**

**They speak of  
presence  
— of someone  
showing up,  
again and  
again, to meet  
themselves.**
