

This thinksheet supports the concepts taught in *You Are A Social Detective*, 2nd Edition, *Social Thinking and Me*, and *We Thinkers! Vol 2*.

Making a Smart Guess at Home

Being a social detective at home will help you figure out situations around you and will help you feel more connected. Practice being an observer at home to help figure out what's going on around you. Look around the house, find your mom, dad and sibling/s and write down your thoughts: Where was the person? What was the person doing? What was the person saying? What do you know or remember about the person?

I observed _____.

Where were they?

What did you see?

What did you Hear?

What do you know or remember?

Now add these up to and make a smart guess about what's happening.

Place + What you saw + What you heard + What you know or remember

What is your smart guess about what is happening? What do you think their plan was?
