# General Waste

Your Partner for Efficient and Responsible General Waste Disposal

## Making General Waste Management Easy for You

Managing general waste (non-recyclable refuse) efficiently and responsibly is crucial for businesses and organisations of all sizes. Restore Datashred provides comprehensive and reliable general waste collection and disposal services, ensuring environmental regulation compliance.

We offer complete general waste disposal services, including destruction and disposal.

### Regular Collections

We offer flexible collection schedules tailored to your specific needs, from daily to weekly or bi-weekly pickups.

### On-Demand Collections

For occasional or one-time waste removal needs, we can arrange prompt and efficient pickups.

### Container Supply

We provide a range of container sizes to suit your waste volume, including wheelie bins, skips.

Did you know we offer comprehensive general waste disposal services for a wide range of non-recyclable materials, including packaging, plastics, food waste and general office refuse?

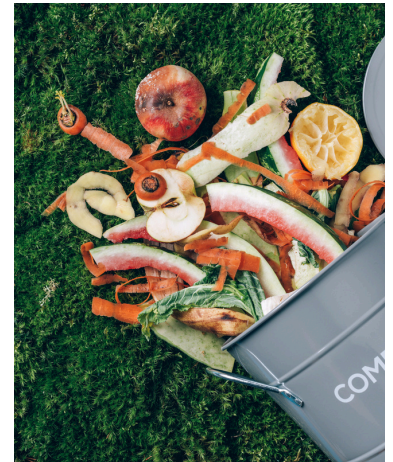

# Food Waste Recycling

Food Waste Management:  
Good for the Planet, Good  
for Your Business

## Turning Food Scraps into Sustainable Resources

Managing food waste responsibly is good for the environment and can also benefit your business. Restore Food Waste Recycling offers comprehensive food waste collection and processing services, helping you divert food scraps from landfills and contribute to a more sustainable future.

We offer a complete food waste recycling solution, turning food scraps into valuable resources and reducing landfill waste.

### Regular Collections

We offer flexible collection schedules tailored to your needs, from daily to weekly or bi-weekly pickups.

### Container Supply

We can provide appropriate containers for food waste collection, including bins and larger containers for bulk quantities.

### Food Waste Receptacles

Available in 6L & 25L sizes in a variety of colours to suit any office environment.

Did you know we offer comprehensive food waste recycling services for food waste generated by restaurants, grocery stores, schools, and households?
