

# Secure Shredding & Destruction Services

Learn how our certified shredding solutions keep Lyreco customers compliant and protected.

## Secure shredding and destruction made easy with Restore Datashred

Restore Datashred is one of the UK's leading providers of secure shredding and confidential waste disposal. We help organisations of all sizes protect sensitive information with reliable, fully compliant shredding solutions tailored to their needs.

From secure collection and certified destruction to environmentally responsible recycling practices, our services ensure your data is handled with the highest levels of security and care. With national coverage and industry-leading expertise, Restore Datashred makes safeguarding confidential information simple, safe, and seamless.

We offer a full-service shredding solution that includes collection, secure destruction, and a certificate of destruction for all services.

### Regular Collections

Scheduled collections for ongoing, secure disposal.

### Ad-hoc Collections

One-off clearances for offices or bulk waste.

### Off-site Shredding

Cost-effective, secure destruction at our facilities.

### On-site Shredding

High-security shredding at your premises.

### Bespoke Solutions

Tailored services to meet specific customer needs.

Protecting confidential information is more critical than ever. Restore Datashred offers a simple, secure, and convenient solution for destroying sensitive documents with our range of secure and compliant shredding services.

Restore Datashred provides a hassle-free way to securely dispose of a wide range of materials including paper documents, textiles, hard drives, and other media — through our fully compliant shredding and destruction services.
