Master Builders Solutions Celebrates Successful Integration of Arkaz, Strengthening Its Long-Term Commitment to Saudi Arabia

- Significant milestone and long-term commitment to Saudi Arabia's construction market.
- Master Builders Solutions' growing role in the Kingdom's evolving construction sector.
- Positioned to deliver enhanced value, broader solutions, and stronger technical support.

Master Builders Solutions today marked a significant milestone with the successful integration of Arkaz into its global organization, reinforcing the company's long-term commitment to Saudi Arabia and its ambition to play a growing role in the Kingdom's evolving construction sector.

Integration Combines Strengths to Serve Saudi Arabia Construction Market

The integration brings together Arkaz's established local manufacturing capabilities, market expertise, and strong customer relationships with Master Builders Solutions' global technologies, innovation resources, and international experience. Together, the combined organization is uniquely positioned to deliver enhanced value, broader solutions, and stronger technical support to customers across Saudi Arabia and the wider region.

Shared Vision for Future Growth

The occasion brought together senior leaders and other stakeholders to celebrate the completion of the integration and outline a shared vision for future growth.

"As Saudi Arabia continues to advance its ambitious development and infrastructure agenda, Master Builders Solutions remains committed to supporting the market through continued investment, innovation, localization, and customer-focused solutions," said Boris Gorella, Chief Executive Officer, Master Builders Solutions.

Strong Platform for Contributing to Saudi Arabia's Vision 2030 Objectives

The integration represents more than the combination of two organizations. It establishes a strong platform for sustainable growth, enabling Master Builders Solutions to further expand its local capabilities while leveraging global expertise to support increasingly complex and demanding construction projects across the Kingdom.

As part of its growth strategy, the company intends to continue investing in local operations, technical expertise, innovation, and manufacturing capabilities to better serve customers and contribute to Saudi Arabia's Vision 2030 objectives.

Saudi Readymix, one of the Kingdom's leading ready-mixed concrete producers and a long-standing strategic partner of Master Builders Solutions, welcomed the strengthened capabilities and opportunities created through the integration.

"Our longstanding partnership with Master Builders Solutions reflects our shared commitment to quality, innovation, and delivering value to customers. The integration of Arkaz strengthens access to global technologies and technical expertise, creating new opportunities to support the evolving needs of Saudi Arabia's construction sector. We look forward to continuing this successful partnership," said Mohammed Abu Zaid, Managing Director, Saudi Readymix.

Strategic Partnerships Creating Long-Term Value

The celebration also highlighted the important role of strategic partnerships in creating long-term value and supporting business growth. Previously part of Alturki Holding's portfolio, Arkaz's successful integration into Master Builders Solutions marks an important milestone in its growth journey, reflecting the value of building strong Saudi businesses with the potential to attract leading international investors.

"At Alturki Holding, our investment philosophy is centered on building high-performing businesses that create sustainable, long-term value. The ability to attract leading international investors reflects the strength, governance, and growth potential of Saudi businesses. We remain committed to investing in businesses that contribute to the Kingdom's economic development and the ambitions of Saudi Vision 2030," said Rami Alturki, President & CEO, Alturki Holding.

Looking ahead, Master Builders Solutions remains focused on strengthening customer relationships, expanding its portfolio of innovative construction solutions, investing in local talent and capabilities, and supporting the Kingdom's ambitious plans for sustainable economic development. With the integration now complete, the company enters a new chapter of growth,

combining local strength with global expertise to help shape the future of construction in Saudi Arabia.

About Master Builders Solutions

Master Builders Solutions is a leading global manufacturer of concrete admixtures, underground construction products, and other innovative solutions for the construction industry. Driven by its vision - Inspiring people to build better - the company provides value-added technologies and market-leading R&D capabilities to enhance the performance of construction materials and reduce CO₂ emissions in concrete production. Founded in 1909, Master Builders Solutions employs ca. 2,000 people and operates 49 production sites worldwide. Master Builders Solutions is committed to supporting customers in overcoming today's construction challenges – for a decarbonised future.
