MasterTop Epoxy Flooring Systems

MasterTop epoxy flooring systems have been protecting and beautifying floors since 1925. From chemical resistant floors to decorative aggregate systems, MasterTop materials offer the diversity and time-tested performance required by today's building owners.

MasterTop resinous flooring systems combine ease of maintenance with the toughness and durability required in challenging commercial, institutional and industrial environments. In addition, MasterTop flooring systems can be installed in a variety of attractive colors, finishes and surface profiles.

All MasterTop flooring systems are available in a variety of textures to provide slip resistance for enhanced safety. The full product line of MasterTop epoxy and polyurethane flooring materials are customized to your specific needs. Create unique systems for your facility that consider available downtime, durability, construction schedules and budgets.
