

Lid: watertight gasketed lid and an easy tear-off skirt

Outer: 5-gal (19L) sturdy plastic pail
Each pail weighs 48 lb (21.8 kg); 36 pails per pallet (shrink-wrapped)

Inner: 8 water-soluble pods, each pod weighs 6 lb (2.7 kg)

One pail treats approximately one truckload of concrete for most applications.

MasterLife® 300C Concentrated Crystalline Capillary Waterproofing Admixture

Innovative Packaging

Robust, convenient packaging increases ease of storage and batching, and significantly extends product shelf life.

Easy and safe to load with no special requirements— aggregate belt, wash rack, central mixer, pre-load. No dust exposure during batching.

Package durability during shipping and storage

- Ship long distances without damage to contents
- Store in extreme environments without damage to inner contents

Exposure testing

Product storage was tested in extreme conditions such as submersion in water and long-term humidity conditions. The contents proved to be secure and dry.

100% humidity storage, dry inner contents.

Dry inner contents after underwater storage for 2 weeks.
