

<Introduction>

Be guided around the quiet islands of Kamijima by a New Zealander who visited once and never left.

Kamijima is a group of islands with no traffic lights, slightly off of the main Shimanami Kaido cycling route. While cycling, you will see quaint town scenes, and narrow alleyways that add to the atmosphere of this local tour. The focus of this tour is on the interactions with the people who live on the island, and learning about life on a quiet Japanese Island. The cycling route is called the Yumeshima Kaido, which literally means "Dream island road". The route will take you past several panoramic views of the Seto Inland sea, and you will stop at a welcoming homely cafe for a gentle and fresh meal. This is a slow tour, so even those who are not familiar with cycling can still easily join and enjoy the tour.
