	Yamaguchi prefecture is the real hidden gem of Western Japan: while having been far from the tourism radar until very recently, the Yamaguchi region has been a key player throughout many historical periods of Japan, being both a cultural haven during samurai time as well as the catalyst of the modernisation process of Japan in the late 1800s. Today join a local guide and visit the stunningly beautiful temples and shrines of Yamaguchi city. Competing with those in Kyoto in terms of beauty and architectural value, they are set in a peaceful and serene atmosphere, still very much undisturbed by visitors. Dive deeper into the local culture by exploring the local Kimono culture, the rather unique and somewhat surprising local dish Kawareya Soba (soba served on a roof tile!) as well as the local Japanese confectionery and sake!
