

STATEMENT OF CARBON NEUTRALITY

*International
Biathlon Union
2023*

June 24

Subject of Declaration

The subject of this statement includes all activities under the International Biathlon Union operational control (Organisational Footprint), covered under Scopes 1 and 2 of The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (Revised Edition) as detailed within this report.

This statement is compatible with international standards ISO 14064 and PAS 2060.

Carbon Neutrality

Carbon neutrality refers to achieving net zero carbon dioxide emissions by balancing emissions with carbon removals (i.e., carbon offsetting). This is important as it allows global balancing of emissions while emissions reduction strategies are being implemented.

Why is Carbon Neutrality Important?

To avoid the worst effects of climate change, we need to take responsibility for our impact and act now to limit global temperature increases to 1.5 degrees Celsius, or well below 2 degrees Celsius above pre-industrial levels.

As set out in the Paris Agreement, offsetting plays an important role for rapidly deploying environmental solutions where it is economically most viable. This helps to bridge the gap between now and the time our societies will be able to phase out Green House Gas (GHG) emitting technologies.

In that respect, the Paris Agreement aims to accelerate the transformative change needed to reach carbon neutrality, ensuring that countries around the world will be increasing their ambition and action over the second half of the twenty-first century, while also supporting the achievement of Sustainable Development Goals.

Organisation details

International Biathlon Union

Sonystrasse 20,
5081 Anif b. Salzburg,
Austria

Period during which the entity is demonstrating that carbon neutrality of the subject has been achieved:

1st October 2022 to 31st September 2023

Assessment validated by:

One Carbon World Ltd.

Recorded Scope 1 and 2 GHG emissions during the measurement period:

14.60 tonnes CO₂e

Activities/Emissions included in footprint:

Scope 1 and 2 - Activity Type	Total Tonnes CO ₂ e
CO ₂ e emissions from Scope 1	13.44
CO ₂ e emissions from Scope 2	1.18
Total Emissions tCO₂e	14.60
Neutralised by Carbon Credits from Projects tCO₂e	15
Total Net Emissions tCO₂e	0
Scope 1 and 2 Result	Carbon Neutral

Method Used to Achieve Carbon Neutrality:

15 tCO₂e off-set through retirement of 15 Certified Emissions Reductions from the UN Clean Development Mechanism. Project: [Reducing N2O emissions to mitigate global warming.](#)

The carbon neutrality of the activities under the operational control of International Biathlon Union, listed in this Statement, has been achieved in accordance with the One Carbon World Carbon Neutral International Standard, for the period: **1st October 2022 to 31st September 2023.**

Signed:

A handwritten signature in black ink that reads "A Bowen".

Carbon Credit Retirement Certificate from Certified Emission Reductions (CERs)

United Nations
Framework Convention on
Climate Change

Date: 5 JUNE 2024
REFERENCE: VC33448/2024

**VOLUNTARY
CANCELLATION
CERTIFICATE**

Presented to
International Biathlon Union

Project
N2O abatement in MP Nitric Acid plants at Rashtriya Chemicals & Fertilizers
Limited, India

Reason for cancellation
I want to contribute to climate action.

**Number of units
cancelled**

15 CERs
Equivalent to 15 tonne(s) of CO₂

Start serial number: IN-5-87991284-1-1-0-2801
End serial number: IN-5-87991298-1-1-0-2801

The certificate is issued in accordance with the procedure for voluntary
cancellation in the CDM Registry. The reason included in this certificate is
provided by the cancellor.
