

IBU REGIONAL EVENTS

Report 2021/2022

28/04/2022

Mission

Increase the visibility of events and athletes across the world (Target26)

Goal

Establish a strategy for the implementation of sustainable regional IBU events, focused on developing biathlon

Objectives

- 1.Support NFs to implement **good quality** international competitions for **young athletes**.
- 2.Address gaps in participation pathways by supporting **NFs** to introduce programs based on international **cooperation**.
- 3.Create the possibility of **wide participation** in system sports competition (popularization).
- 4.Support NFs to **use and keep or build local** biathlon facilities and venues to **promote biathlon** nationally and regionally.
- 5.Increase the activity and efficiency of biathlon federations/associations and clubs in the field of promoting sport of children and youth.
- 6.Gain access to additional resources and funding.

- 26 out of 30 Regional Events were organized as planned
- Some Regions require support and advice very much, people tend to not read the projects principles and fill in requested documents/report wrong or incomplete (IBU financial support shall not exceed 50% of the total project costs).
- Project needs better communication within the Region (travel contribution, IBU support, agreed calendar)
- At some events it could have been more visible that it's a IBU Regional Event or at least supported by IBU
- Reports with results were mostly sent in time
- Good pictures documentation
- Invitations are enough. However, did not inform NFs about travel contribution.
- Some NFs/OCs found it difficult to fulfil the rule: ***Participation of a minimum of 3 NFs in one IBU Regional Event is required . One NF should be represented with a minimum of 3 athletes (youth/juniors)***
- Someone from IBU should at least attend some of the events during the season to check conditions and organizing quality on spot / advice organizers if needed
