

## Context

Researchers (completed PHD) and research institutions can apply for fundings in terms of projects related to the sports of biathlon. The results shall be shared with the 60 IBU member associations.

## Research Topics

Physiology, Biomechanics, Psychology, Performance Analysis, High-Performance Pathways, Long Term Athletes Development, Anthropometry, Recovery, Prevention, Nutrition and other areas agreed by the IBU Research Grant Working Group.

## IBU Research Grant Working Group (RGWG)

The RGWG, consisting of academic and wintersport experts, will review the applications and makes a suggestion to the IBU Executive Board which shall make a final decision.
