

ELECTION PROGRESS

This section tracks the ongoing vote count as a share of the total potential vote. We break down votes cast by party affiliation and by the percentage of the overall vote they represent.

2018 Midterm voter = last voted in 2018

Presidential voter = last voted in 2016

New registrant = registered to vote after 2016 general election

POTENTIAL VOTES NOT YET CAST

The final outcome will depend largely on voters who show up in person. We track the number of voters from each party who have yet to vote as well as those who have not requested a mail-in ballot. We do not expect all of them to vote; Florida's 2016 turnout rate was 75%.
