

FLORIDA MAN STEVE SCHALE SAYS

Typically, urban counties in Florida lag the turnout of the exurban and suburban counties. This year, of the seven counties in Florida that have a population of roughly 1 million or more, four have turnouts higher than the state turnout rate through Tuesday 10/27 (47.9%). Of those four, the county with the highest turnout rate is Pinellas (St. Petersburg area), which isn't a surprise, given its long history of robust voting by mail. The second highest? Broward County (Ft. Lauderdale/Sunrise/Hollywood), where nearly 50% of voters have cast a ballot. In a typical year, Broward's turnout is lower than the statewide average, so this is definitely a change from the past.

ELECTION PROGRESS

This section tracks the ongoing vote count as a share of the total potential vote. We break down votes cast by party affiliation and by the percentage of the overall vote they represent.

How many people have
voted in Florida?

How many registered voters have yet to vote?

*Hawkfish estimate of registered voters

How many votes have been cast by party affiliation?

How many votes have been cast by vote method?

* 51.0K absentee votes and 37.1K EVIP votes have been cast by voters from other parties

MODELED CANDIDATE SUPPORT AMONG VOTES CAST TO-DATE

By analyzing data from the Florida Secretary of State alongside candidate support scores, we can predictively model how many votes Biden and Trump have likely received. We categorize supporters of each candidate by voting history.

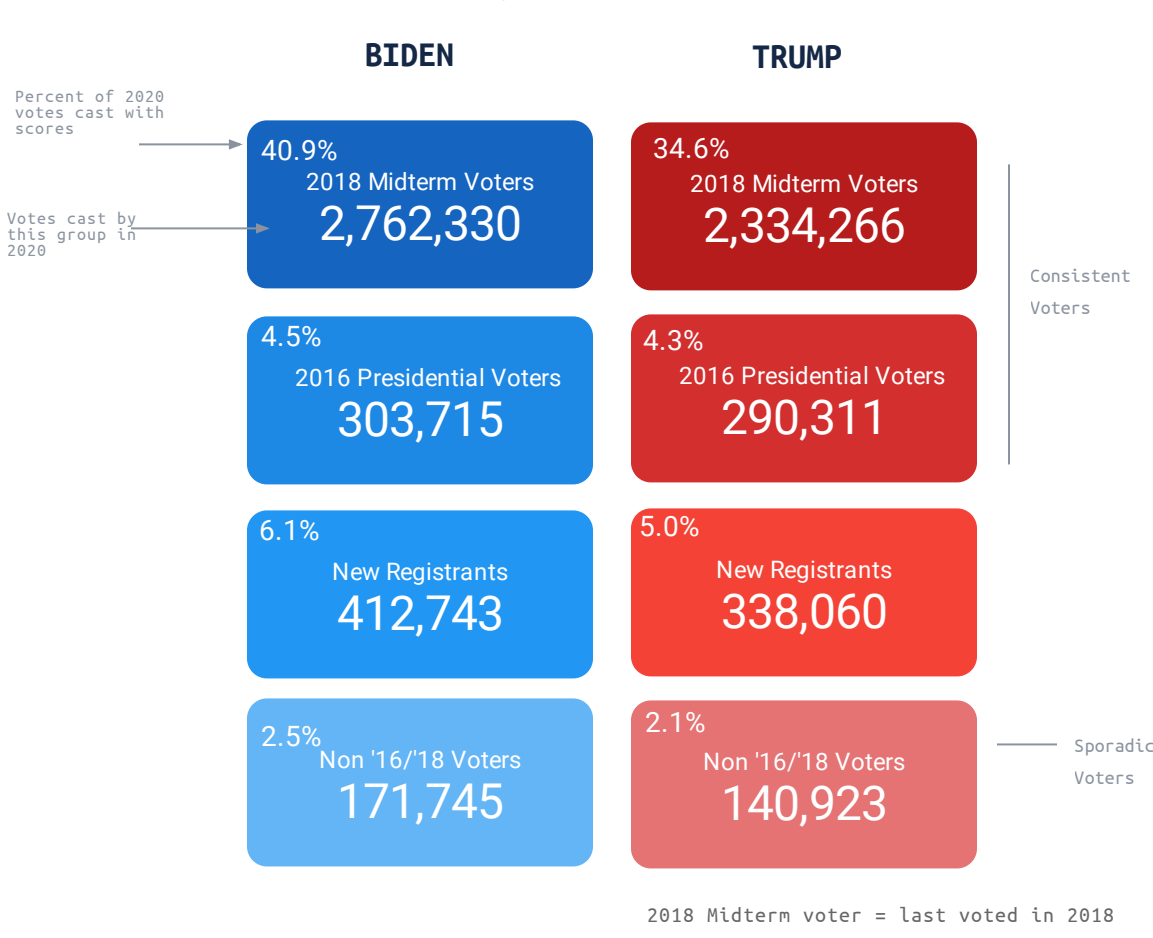

Source: Florida Secretary of State Data | Hawkfish Biden Support Score | Hawkfish Analysis

How many votes does our model suggest each candidate has received?

→ Voters with unknown scores excluded from percentage calculation

With regard to the timing of the first visit, 60% of the DII-2011 respondents reported that they had visited the doctor within the last 12 months, compared to 50% of the DII-2007 respondents.

Presidential voter = last voted in 2016

POTENTIAL VOTES NOT YET CAST

The final outcome will depend largely on voters who show up in person. We track the number of voters from each party who have yet to vote as well as those who have not requested a

mail-in ballot. We do not expect all of them to vote.

How many registered voters have not yet cast their vote, by party?

*This breakdown assumes full turnout on election day. Turnout will be lower

* This report now includes Early Voting In Person data as well as updated voter registration data
