

Virtual CodeDay: Call for Volunteers

Virtual CodeDay is a worldwide weekend tech event that encourages diverse, under-served students to start coding. Most attendees have no interest in CS, but 70% keep coding after attending!

Judge

Low Commitment

CodeDay judges review submissions (a 2min video + information about the team members), pick their favorites, and then deliberate with other judges to determine overall winners.

Time:

Sunday of the event, 2hr starting at 12 pm Pacific / 3 pm Eastern.

Requirements:

None.

Requirements:

Optional webinar, tutorial available at start.

Speaker

Low Commitment

Students at CodeDay are excited to learn the many ways technology is applied in the industry. We are looking for workshops for both beginner- and intermediate-level students.

Time:

Saturday of the event; flexible 30min-1hr slots.

Requirements:

Experience in tech, design, or project management.

Requirements:

Speaker guide covering the audience and technical details, suggested workshops are available if you don't have an idea already.

Mentor

Medium Commitment

Mentors help students create apps and games. You'll be assigned to check in with a group, and can optionally host office hours or help on our chat. Students need the most help with debugging skills.

Time:

Saturday of the event; flexible 2-3 hours throughout the day.

Requirements:

Experience in tech, design, or product management.

Requirements:

We request that first-time mentors join a 30min webinar scheduled prior to the event.
