48" LIGHTBARS

11 Series REFLEXL® Narrow LED Lightbar

The CODE 3, 11 Series RefleXL® is our most compact and low-profile warning lightbar to date. Engineered for performance and discretion, this sleek lightbar features a rugged polycarbonate lens and a durable aluminum frame, ensuring long-lasting reliability in demanding environments.

Designed for permanent installation with included mounting feet, the RefleXL® delivers powerful, attention-grabbing illumination while maintaining a streamlined appearance. It's available in a dual Red/Blue configuration with a colored lens, or in single Red or Blue with a clear lens—offering flexibility to suit a wide range of vehicle applications.

With up to 35 selectable flash patterns, this LED lightbar provides the versatility and visibility essential for emergency response vehicles where space is limited but performance is critical.
