ECCOLED

The ECCOLED beacon range is designed to offer a solution utilising powerful LEDs, arranged to produce a 360° flash pattern by combining the solid-state, maintenance free long-life nature of LED technology. This high-performance range has increased EMC, is robust and compact in a popular housing design and is available in four standard mounting options. The ECCOLED range of beacons are suitable for a variety of vehicles and are designed to withstand excessive vibration, increasing the life of the product.
