CORPORATE GIFTING CATALOG

Gardenuity

FOR BUSINESS

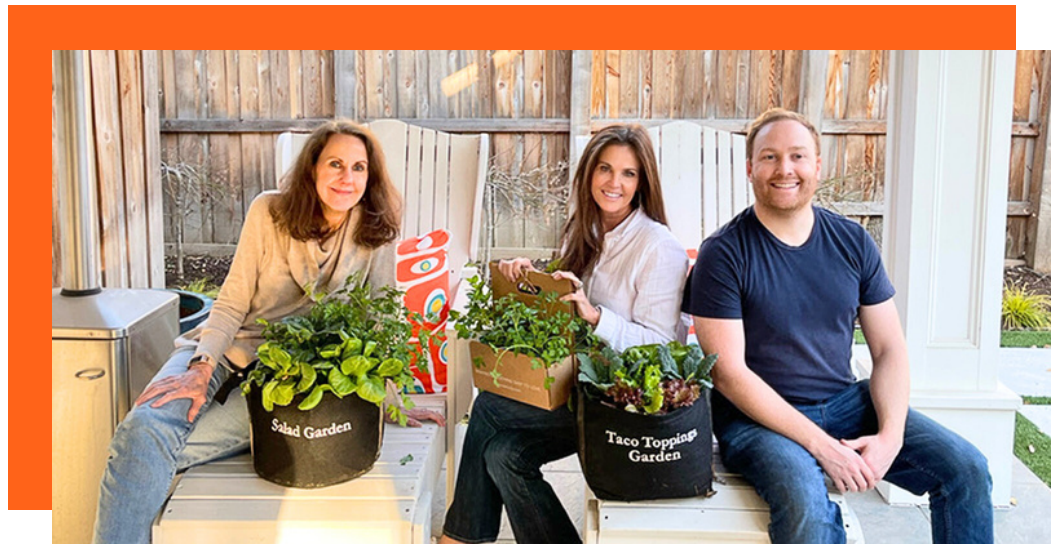

Gather & Grow

Gardenuity is a garden + gardening experience company. We bring people together with the well-being benefits of growing great things. Each garden and gardening experience is rooted in science and grows on a foundation of well-being.

The phrase 'Gather & Grow' highlights individual and collective growth: personal development and nurturing positive change with the idea of inspiring friends, colleagues, leaders, and customers to grow their well-being and the well-being of others.

The combination of beautiful plants and engaging gardening experiences makes Gardenuity one of the fastest growing destinations for corporate gifting, company wellness, and community gatherings.

We look forward to growing great things with you.

- CFO Julie Eggers, CEO Donna Letier, COO Doug Platts

our commitment to
growing good

We proudly support several organizations across the country through the Gardenuity Foundation. The Gardenuity Foundation helps bring gardens, gardening experiences, and the wellness benefits that come from gardening to people across the country. For every 20 gardens sold, a garden is donated to a volunteer who makes organizations like Feeding America, Smile Farms, Chef, and The Family Place possible.

Be part of the story that *grows good.*

How it *works*

Pre-orders available starting July 1st.

1

Select Your Garden

Schedule a one-on-one call with one of our corporate account leads and they will walk you through the gardens + gardening experiences that best fit your goals. Every garden is customizable and will surely leave a lasting impression.

2

Send Us Your List

Send us the addresses of your recipients, we check it twice to ensure it matches with our carrier and will send you a confirmation prior to shipping.

3

Shipped with Care

Your gardens will be carefully hand-packed and shipped straight to your recipients, making your gift giving experience seamless. Free shipping for all items except Amaryllis Bulbs.

“A phenomenal partner for both our new financial year kick-off event and corporate gifts.”

Parag Shah
SVP at Amdocs

Trusted by and *growing* with the world's leading companies

Desktop Gardens

Plants are known to improve mental health, productivity, resilience, and creativity. Having a desktop garden where you spend so much of your time is a reminder to let nature nurture you – wherever you live, work, and play.
