

EKIUM

A key player in the energy transition and decarbonisation, Ekium is a multi-skilled engineering company operating in the industrial, naval and energy sectors. We support our customers in their strategy, transformation, design and construction of their industrial buildings and equipment, as well as in the management of their production and facilities.

A SUCCESS STORY

In 1990, 4 friends embarked on careers in instrumentation, electrical engineering and automation in Lyon. Today, Ekium has more than 2,700 engineers and technicians in 16 countries. Our integration into the SNEF Group has enabled us to accelerate our growth, expand our international presence and strengthen our investment in innovation. Since 2023, Ekium has been joined by leading engineering firms Sofresid Engineering, DIVA Ingénierie, Techno Pro, Scitech, Pureworld and Norda Stelo, broadening its expertise in the marine, offshore wind, upstream oil & gas, life sciences and energy production sectors.

All projects, no matter how crazy, can be brought to life by our teams.

Let yourself be surprised and [explore Ekium](#) from the angle that interests you!

KNOW-HOW

Ekium offers solutions throughout the project life cycle

Concept & Feasibility

Master plan
