

# EKIUM

A key player in the energy transition and decarbonisation, Ekium is a multi-skilled engineering company operating in the industrial, naval and energy sectors. We support our customers in their strategy, transformation, design and construction of their industrial buildings and equipment, as well as in the management of their production and facilities.

## A SUCCESS STORY

In 1990, 4 friends embarked on careers in instrumentation, electrical engineering and automation in Lyon. Today, Ekium has more than 3,600 engineers and technicians in 18 countries. Our integration into the SNEF Group has enabled us to accelerate our growth, expand our international presence and strengthen our investment in innovation. Since 2023, Ekium has been joined by leading engineering firms Sofresid Engineering, DIVA Ingénierie, Techno Pro, Scitech, Pureworld and Norda Stelo, broadening its expertise in the marine, offshore wind, upstream oil & gas, life sciences and energy production sectors.

All projects, no matter how crazy, can be brought to life by our teams.

Let yourself be surprised and [explore Ekium](#) from the angle that interests you!

## KNOW-HOW

Ekium offers solutions throughout the project life cycle

### Concept & Feasibility

Master plan  
Feasibility  
Process study

### Design & Engineering

Conceptual  
preliminary design  
FEED

### Detailed Design

Detailed design  
Integration  
Digitisation

### Procurement & Delivery

Assist to  
procurement &  
subcontracting

### Construction & CQV

Construction supervision  
& Commissioning

### Maintain

Operating  
Maintenance

Advanced Technologies  
And Manufacturing

Aeronautics, Space  
and Defence

Agri-food

Automotive

Chemicals &  
Industrial Gases

Energy, Water  
And Waste

Life Sciences

Low Carbon

Metals &  
Minerals

Mobility
