

## SmartPosti App installation instructions in Shopify's platform

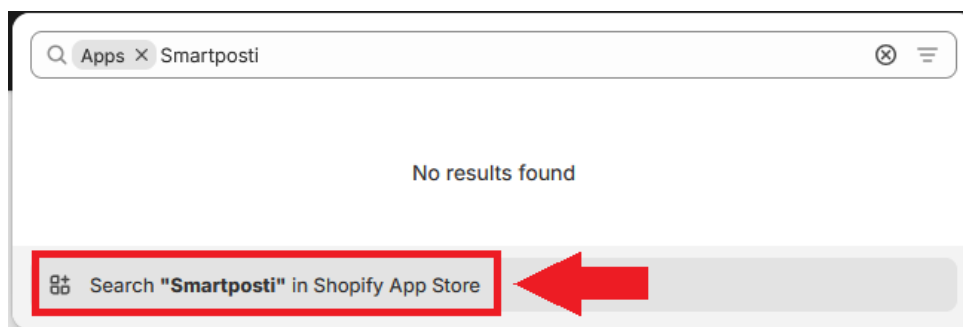

### App functionality:

- Parcel delivery service delivers to SmartPosti pickup points located in Lithuania, Latvia, Estonia and Finland;
- Parcels can be delivered by a courier within the European Union;
- Parcel labels can be printed out from SmartPosti App;
- The manifests of the parcels can be printed out from SmartPosti App;
- Clients can be offered free delivery according to the price of the order.

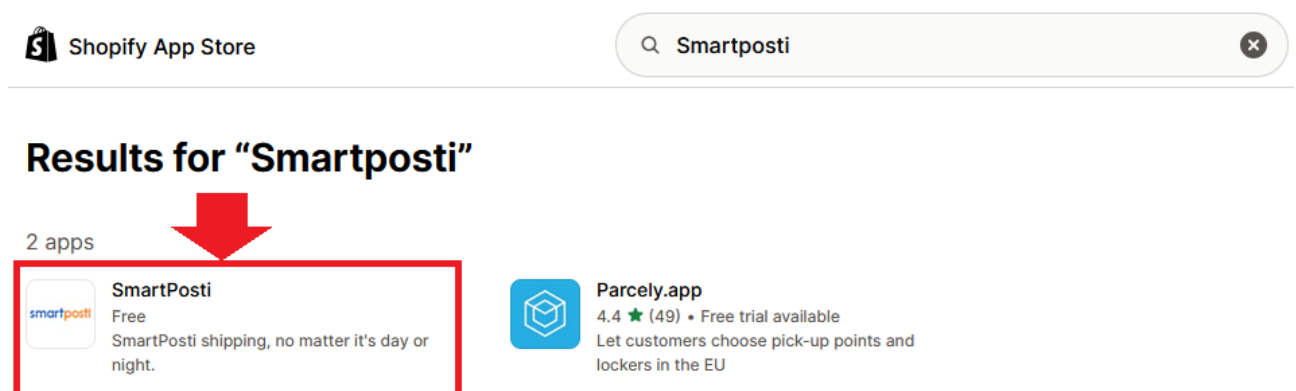

### 1. Installing the SmartPosti App

Before installing the SmartPosti App make sure you have the login credentials (username, password and contract number) for the SmartPosti API.

- 1.1. Login to Your Shopify store or account (<https://shopify.com/login>).
- 1.2. Go to section “Apps” at left-side menu.
- 1.3. In opened search field type “Smartposti”.
- 1.4. Click on “Search ‘Smartposti’ in Shopify App Store”.

- 1.5. Shopify App Store's window will be opened.
- 1.6. Click on “SmartPosti” at visible search results list.

1.7. You will see a window with a summary of a App. Click on button “Install”.

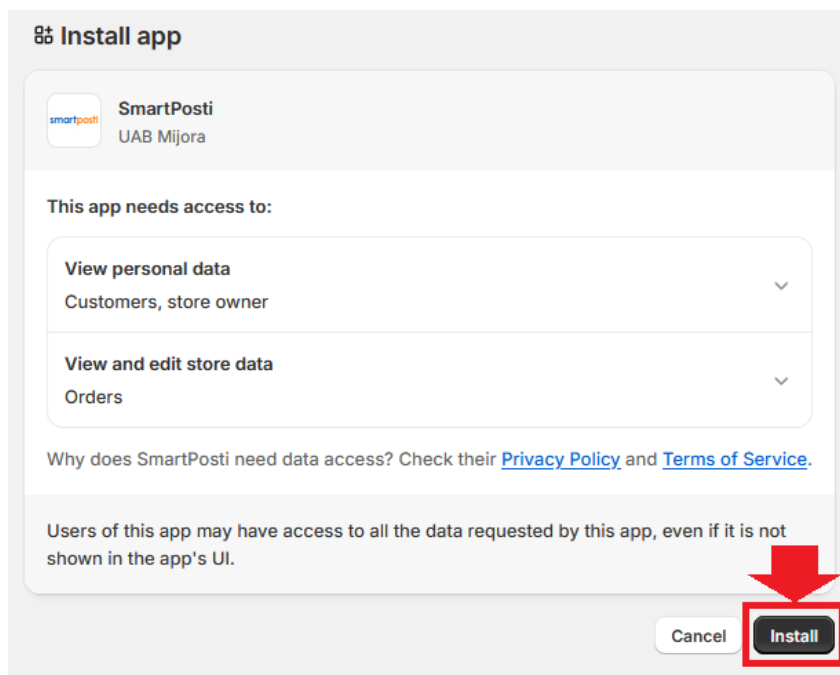

The image shows a summary window for the SmartPosti app. On the left, there's a sidebar with the app's name, pricing (Free), rating (0.0 stars, 0 reviews), and developer (UAB Mijora). A red box highlights the 'Install' button, with a red arrow pointing to it. The main content area features the SmartPosti logo, a photo of a woman holding a cardboard box, and three bullet points: 'Streamlined Order Creation', 'Effortless Label Printing', and 'Comprehensive Delivery Support'. To the right, there are three small screenshots of the app's interface.

**SmartPosti app simplifies order creation, label printing, and delivery for the Baltic and Finland.**

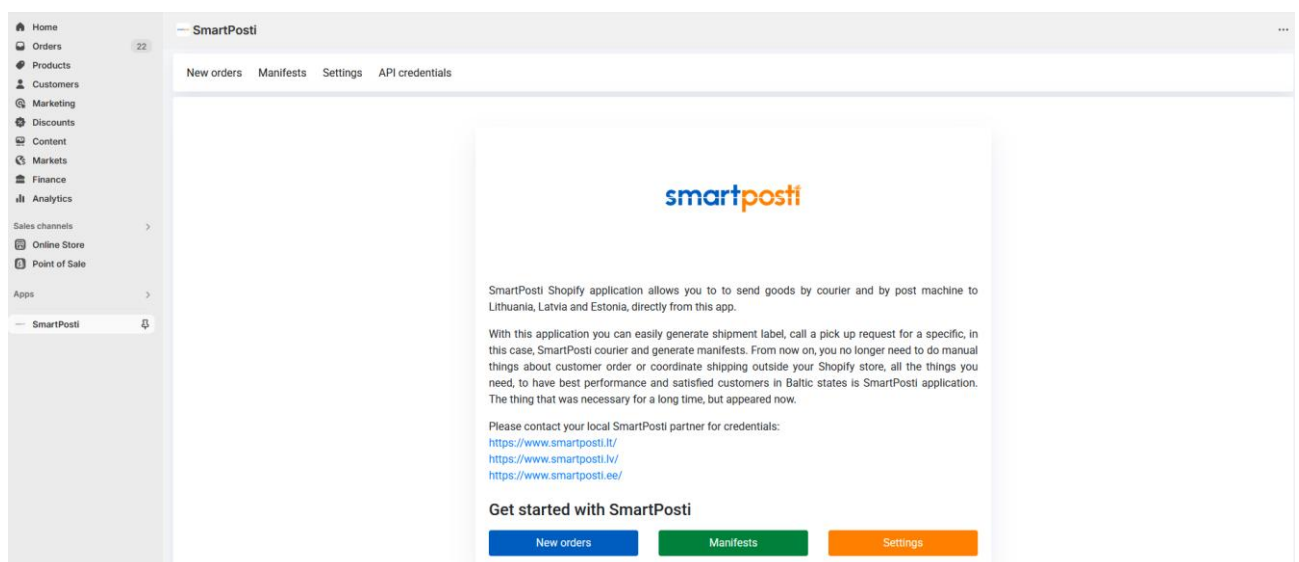

SmartPosti Shopify app streamlines shipping by enabling order creation, manifest generation, and label printing directly in Shopify. It supports courier and post machine deliveries to Lithuania, Latvia, Estonia and Finland.

1.8. You'll be returned to Your e-shop settings panel, where once again need to click on “Install”.

The image shows the 'Install app' screen for SmartPosti. It lists the permissions the app needs: 'View personal data' (Customers, store owner) and 'View and edit store data' (Orders). Below this, there's a link to the Privacy Policy and Terms of Service. At the bottom, there are 'Cancel' and 'Install' buttons. A red box highlights the 'Install' button, with a red arrow pointing to it.

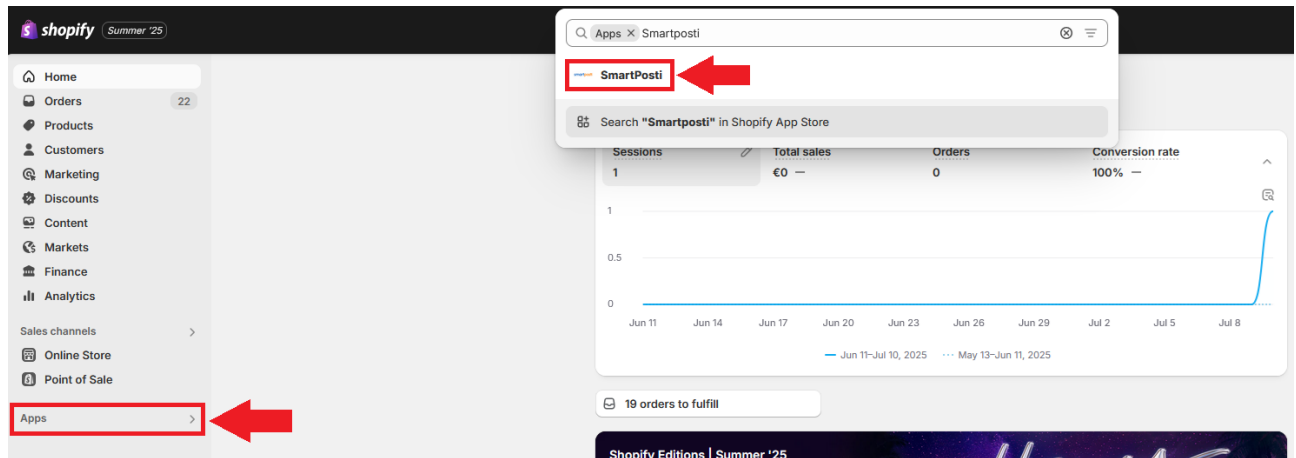

1.9. After successful installation, you will see the main page of the SmartPosti App.

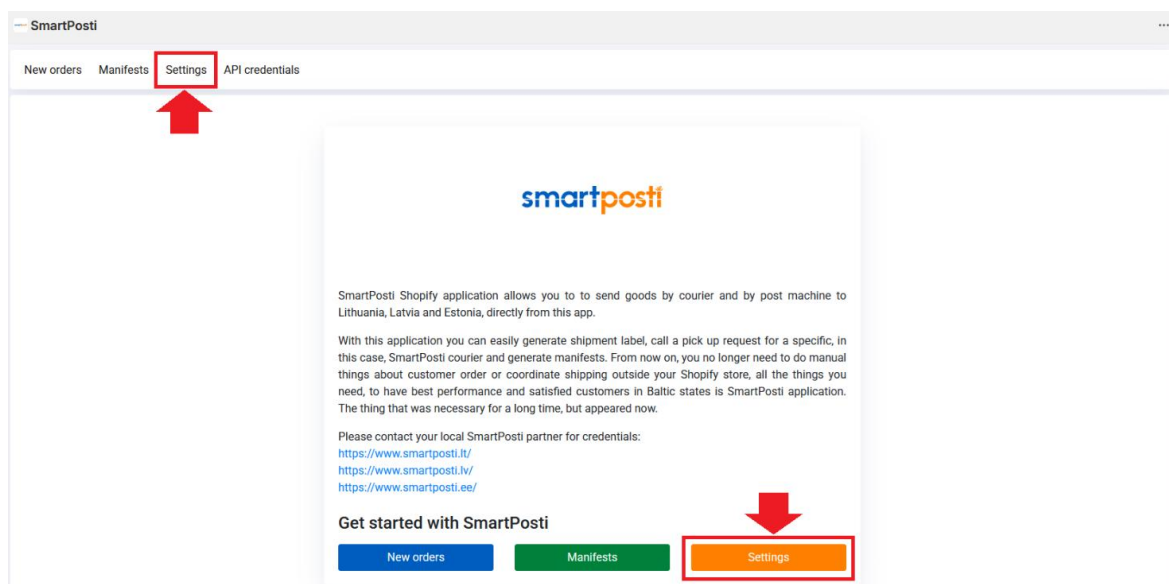

The image shows the main page of the SmartPosti app. On the left, there's a sidebar with a list of navigation items: Home, Orders, Products, Customers, Marketing, Discounts, Content, Markets, Finance, Analytics, Sales channels, Online Store, Point of Sale, and Apps. The main content area has a header with the SmartPosti logo and a sub-header with 'New orders', 'Manifests', 'Settings', and 'API credentials'. Below this, there's a large text block explaining the app's functionality and providing links to the SmartPosti partner website. At the bottom, there are three buttons: 'New orders', 'Manifests', and 'Settings'.

## 2. Configuring the App

2.1. Click “Apps” in the side menu and find “SmartPosti” from the list or by searching.

2.2. On the main page of the app that opens, click “Settings”.

2.3. The App settings will be visible on the page that opens. The “API User ID”, “API Password” and “Contract Number” fields are for the API logins you received from SmartPosti.

The screenshot shows the settings page of the SmartPosti app. The 'API User ID', 'API Password', and 'Contract Number' fields are highlighted with a red box. These fields are for the API logins you received from SmartPosti. Other fields include 'Company email', 'Bank account number', 'Bank BIC', 'Pickup email', 'Company name', 'Automatic pickup point selection?', 'Company street', 'Company city', 'Company post code', 'Company country code', and 'Company phone'.

- 2.4. In the “Pickup email” field, you need to specify the e-mail address of the SmartPosti courier in your country (you can find it out by contacting SmartPosti).

Pickup email \*

smartship.routing.It@itella.com

- 2.5. In the fields starting with “Company...”, you need to enter your address and contact details where the courier will arrive to pick up your parcels or undelivered parcels will be returned.

API User ID *	Company email
<input type="text"/>	<input type="text"/>
API Password *	Bank account number
<input type="text"/>	<input type="text"/>
Contract Number	Bank BIC
<input type="text"/>	<input type="text"/>

### 3. Adding delivery methods

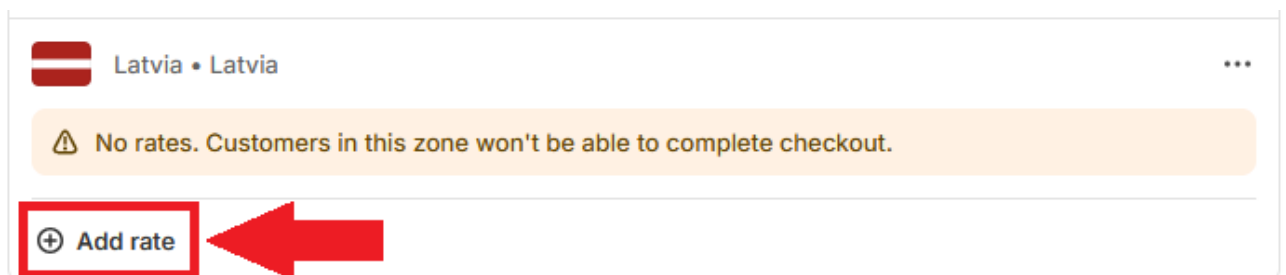

#### 3.1. For “Basic” or “Grow” Shopify plans

In these plans, the SmartPosti parcel locker selection is only available on the "Thank You" page after payment (except when purchasing an additional Shopify service that allows Apps to add shipping methods in Checkout Shipping section).

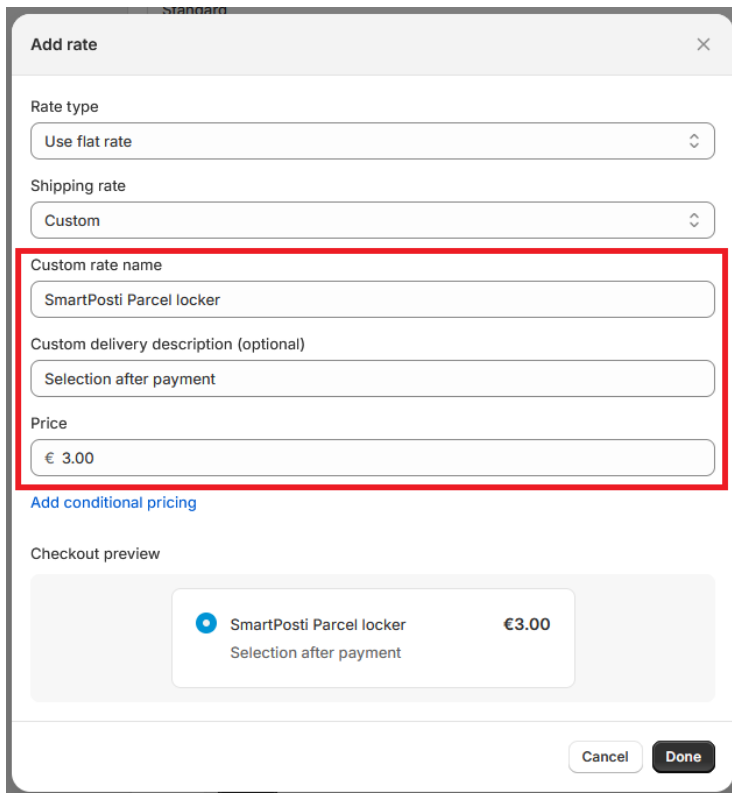

3.1.1. Go to the “Shipping and delivery” section in Shopify settings and click on the “General shipping rates” block.

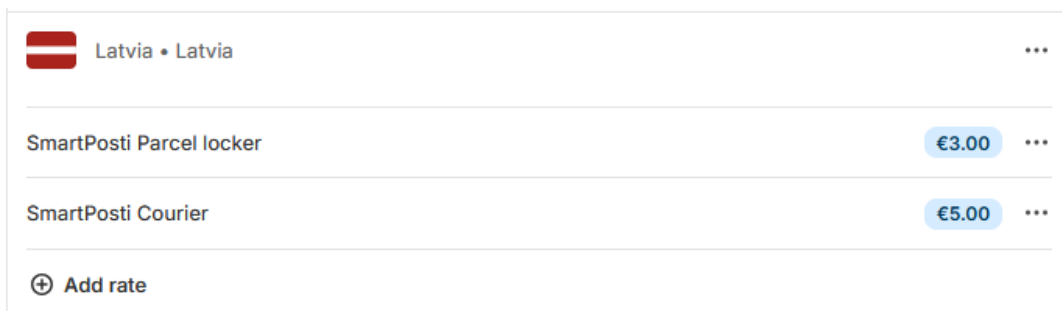

3.1.2. Click the “Add rate” button next to the Shipping zone.

3.1.3. Enter the name of your desired delivery method and its price.

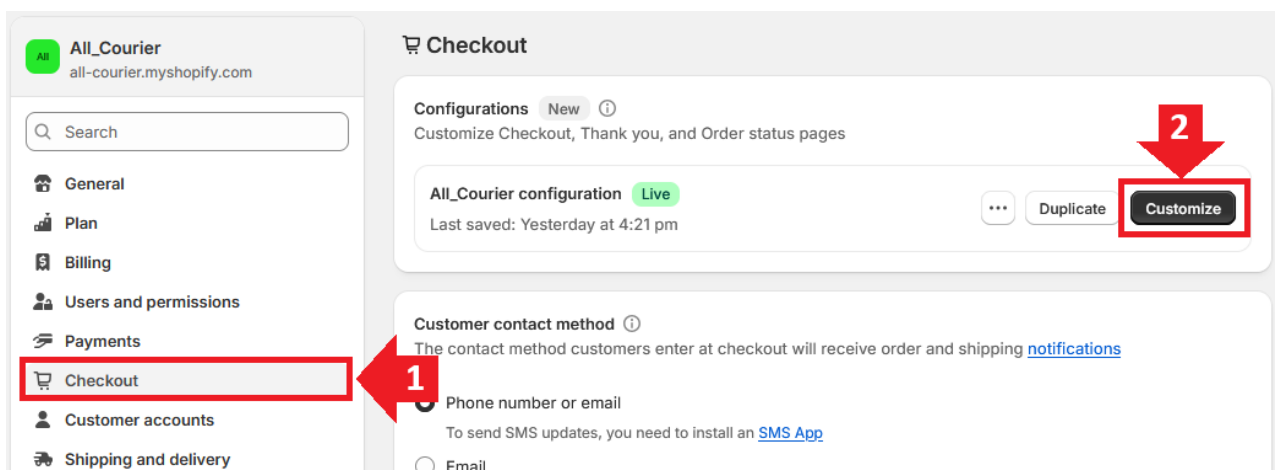

3.1.4. Clicking the “Done” button will create a shipping method that will be displayed on the Checkout page. Create delivery methods for both Parcel locker and Courier, or just the one you intend to use.

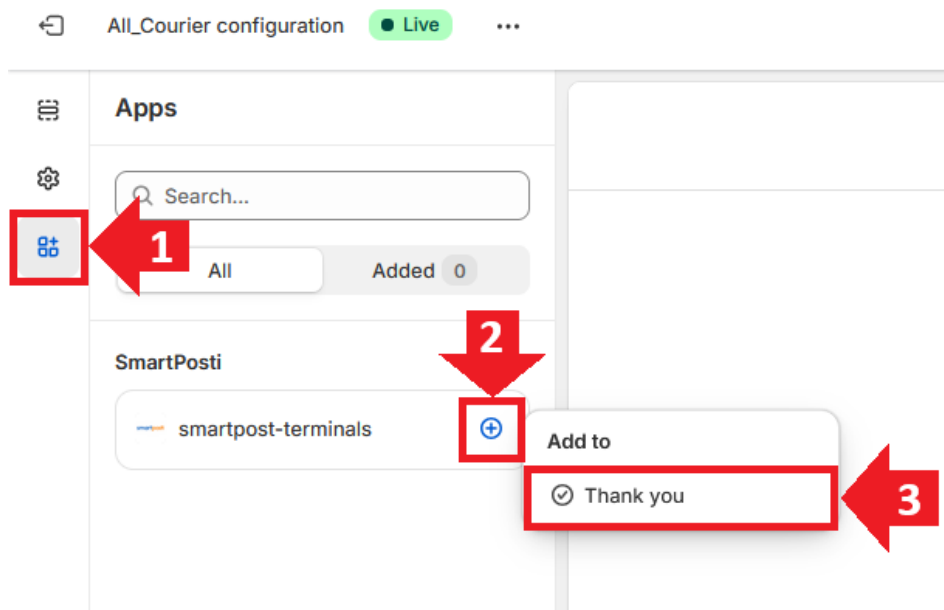

3.1.5. Go to the settings of the Smartposti App and enter the exact names of the delivery methods you have created in the fields described in point 2.7 of this instruction.

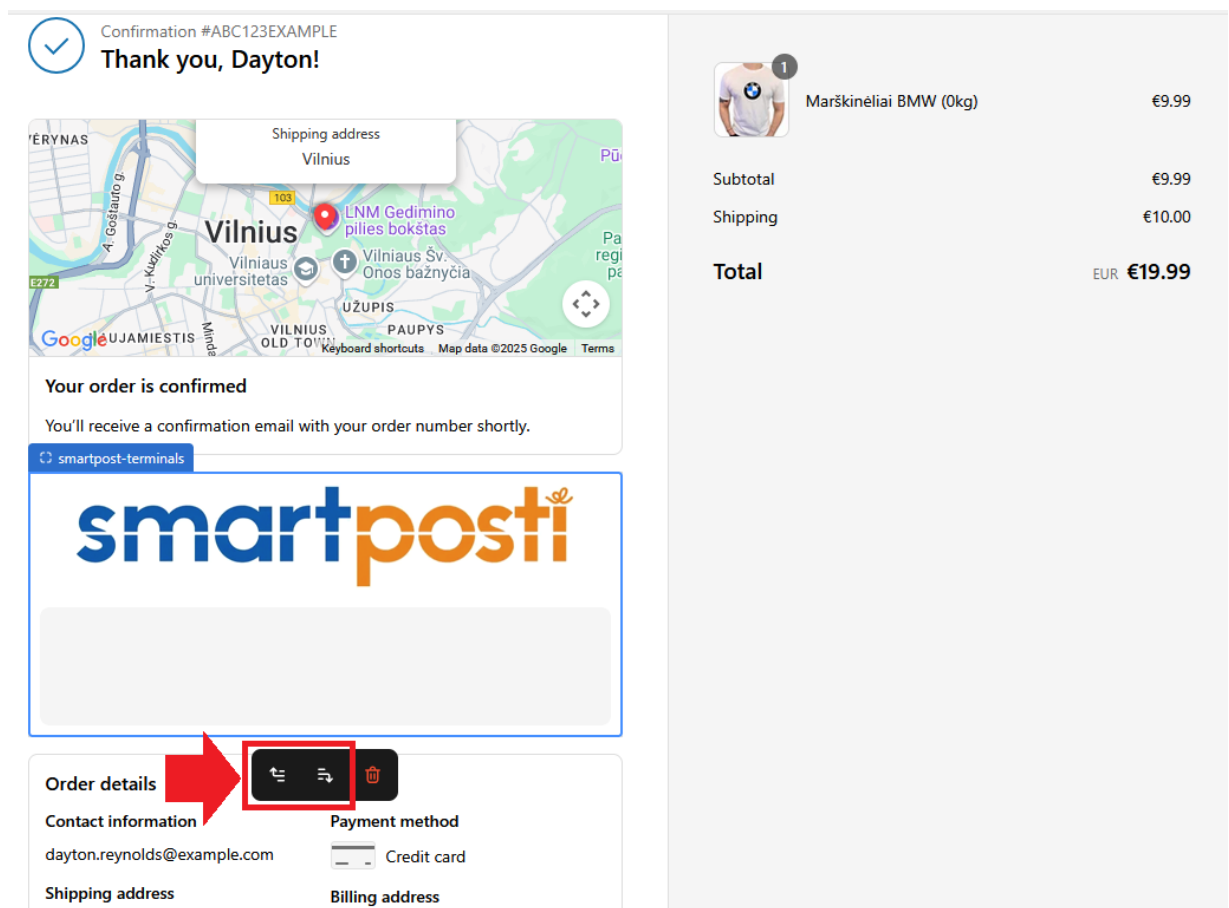

3.1.6. In Shopify settings, go to “Checkout” and in the “Configurations” block, click the “Customize” button.

3.1.7. In the store template editor that opens, click the “Apps” button in the narrow bar on the left, then click the plus sign next to the SmartPosti App and select “Thank you” page template.

3.1.8. In the "Thank You" page template that opens, place the SmartPosti parcel locker selection block in the desired location. Below the block, "up" and "down" buttons are displayed, which move the block.

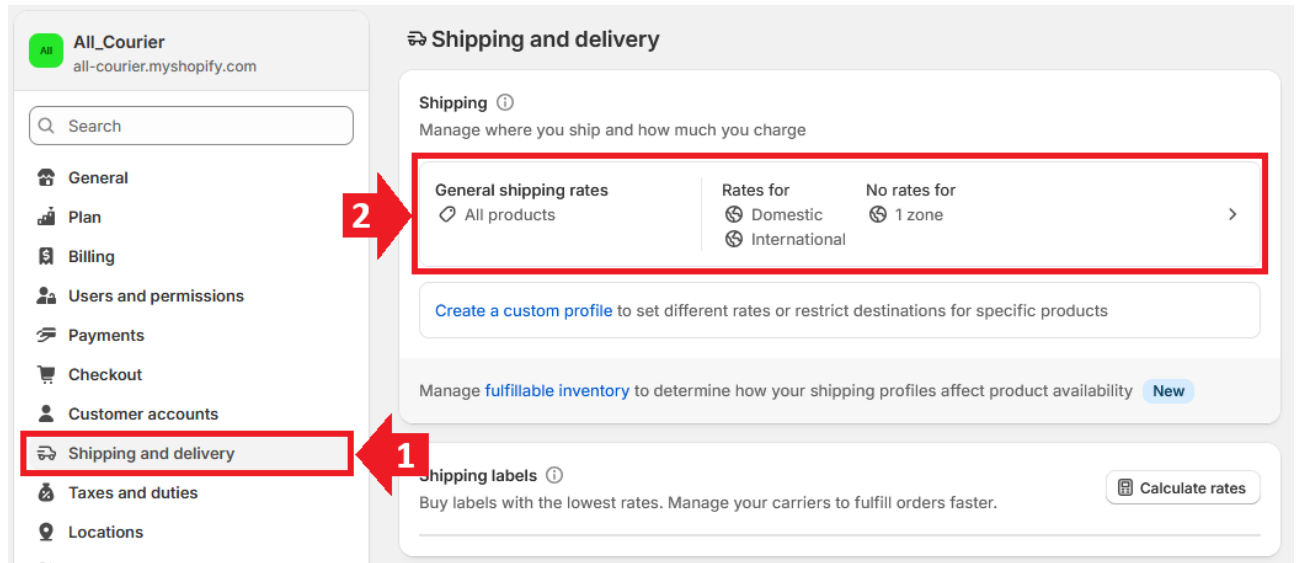

3.1.9. After placing the block in the desired location, click the “Save” button.

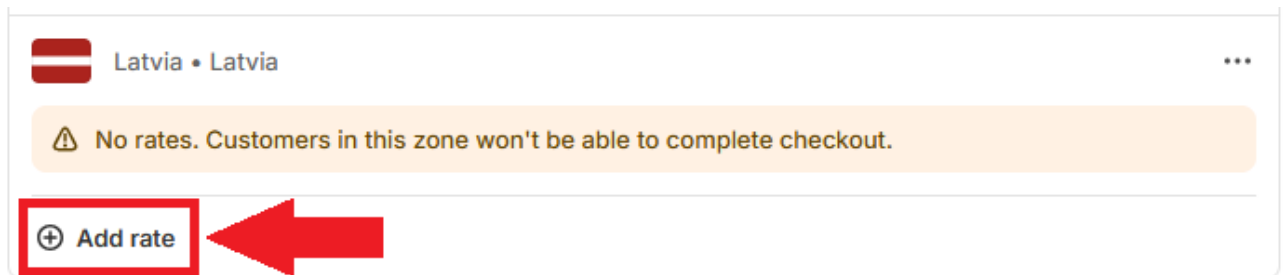

### 3.2. For “Advanced” or “Plus” Shopify plans

3.2.1. Set the settings for delivery methods in the fields described in point 2.9 of this instruction.

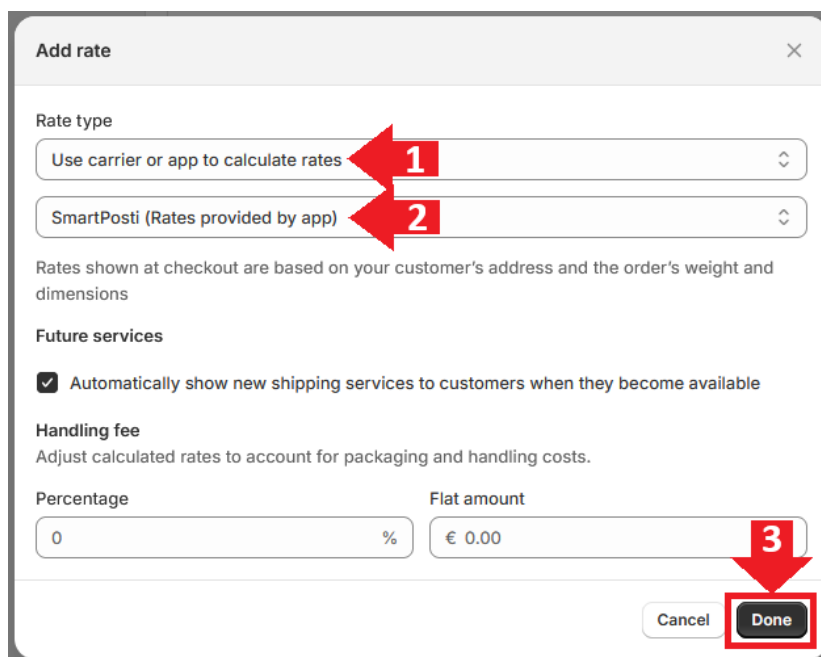

3.2.2. Go to the “Shipping and delivery” section in Shopify settings and click on the “General shipping rates” block.

3.2.3. Click the “Add rate” button next to the Shipping zone.

3.2.4. In the opened block, in the “Rate type” field, select “Use carrier or app to calculate rates”, then in the field that appears below it, select SmartPosti App and click the “Done” button (other settings do not need to be changed, as they are controlled from the settings of the SmartPosti App).

## 4. Using the App

### 4.1. Choosing a delivery method when creating an Order

4.1.1. On the checkout page, if your Shopify plan is “Basic” or “Grow”, you need to choose from the shipping methods created in step 3.1.4 of this instruction.

#### Shipping method

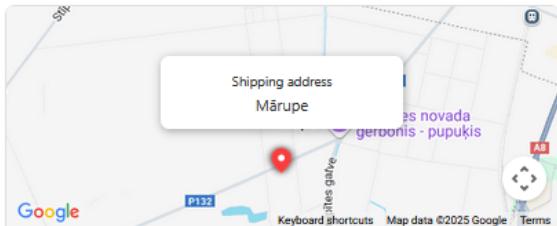

<input checked="" type="radio"/>	SmartPosti Parcel locker Selection after payment	€5.99
<input type="radio"/>	SmartPosti Courier	€11.00

If the parcel locker delivery method was selected, then the specific parcel locker can be selected on the "Thank you" page displayed after payment. If the parcel locker block is not displayed, check if the steps described in 3.1.5 - 3.1.9 of this instruction have been performed correctly.

€19.99

€5.99

EUR **€25.98**

4.1.2. On the checkout page, if your Shopify plan is “Advanced” or “Plus”, you need to choose one of the shipping methods generated by the App.

The name of the courier delivery method is the same as the one you specified in the settings described in point 2.9 of this instruction.

The names of the parcel lockers delivery methods are displayed as received from the SmartPosti server.

**The 5 closest parcel lockers are displayed based on the address entered.**

### Shipping method

<input checked="" type="radio"/> SmartPosti pakomāts Aleja, Vienības gatve 194A, RĪGA	€2.50
<input type="radio"/> SmartPosti pakomāts Elvi Daugavas, Daugavas iela 36, MĀRUPE	€2.50
<input type="radio"/> SmartPosti pakomāts Elvi Lielā Mārupe, Lielā iela 26, MĀRUPE	€2.50
<input type="radio"/> SmartPosti pakomāts Rimi Daugavas, Daugavas iela 31, MĀRUPE	€2.50
<input type="radio"/> SmartPosti punkts Narvesen Upesgrīvas, Upesgrīvas iela 1, MĀRUPE	€2.50
<input type="radio"/> SmartPosti Kurjers	€5.99

## 4.2. Viewing orders with SmartPosti delivery method

4.2.1. All SmartPosti orders can be viewed by selecting "Apps" in the left Shopify menu, then searching for "SmartPosti" (step 2.1 of this instruction) and selecting "New orders" tab in the opened App.

The screenshot shows the Shopify admin interface. On the left sidebar, the 'Apps' section is expanded, and 'SmartPosti' is selected. The main content area displays the 'SmartPosti' app interface with the 'New orders' tab selected. A red box highlights the 'New orders' tab, and a red arrow points to it. Another red box highlights the 'SmartPosti' app in the sidebar, with a red arrow pointing to it. The 'New Orders' section contains three buttons: 'Generate labels for selected orders', 'Create manifest for all orders', and 'Create manifest for selected orders'. Below these buttons is a table with the following data:

Order ID	Delivery address
<input type="checkbox"/> 1194	Test SmartPosti, +37125700000, SmartPosti pakomāts Aleja, Vienības gatve 194A, RĪGA
<input type="checkbox"/> 1193	Test Test, +37125700000, SmartPosti pakomāts Aleja, Vienības gatve 194A, RĪGA
<input type="checkbox"/> 1192	Test Test, +37125700000, SmartPosti pakomāts Rimi Mini Galdnieku, Galdnieku iela 8 RĒZEKNE

4.2.2. The order table on this page shows the recipient's details, the selected parcel locker or delivery address. There is also an action column where you can perform actions related to the shipment.

Order ID	Delivery address	Additional services	Tracking numbers	Actions
<input type="checkbox"/> 1194	Test SmartPosti, +37125700000, SmartPosti pakomāts Aleja, Vienības gatve 194A, RĪGA	Main service: <b>Courier</b>		<b>Actions</b> ▾
<input type="checkbox"/> 1193	Test Test, +37125700000, SmartPosti pakomāts Aleja, Vienības gatve 194A, RĪGA	Main service: <b>Parcel terminal</b>		<div> Edit shipping information  Generate label  Delete order </div>
<input type="checkbox"/> 1192	Test Test, +37125700000, SmartPosti pakomāts Rimi Mini Galdnieku, Galdnieku iela 8, RĒZEKNE	Main service: <b>Parcel terminal</b>		

4.2.3. By selecting "Edit shipping information" in the action column, you can enable additional shipping services or set other shipment-related parameters.

### Edit order

4.2.4. Selecting "Delete order" in the actions column removes the order from this table, deleting its SmartPosti-related data (e.g. the selected parcel locker), but the Shopify order itself remains.

### 4.3. Shipment registration

4.3.1. Shipments are registered in the order list in the SmartPosti App (described in point 4.2.1 of this instruction). In the "Actions" column on this page, you need to select the "Generate label" action. Or you can select multiple orders and click the "Generate labels for selected orders" button.

Generate labels for selected orders
Create manifest for all orders
Create manifest for selected orders

Order	Delivery address	Additional services	Tracking numbers	Actions
<input checked="" type="checkbox"/> 1023	Test Smartposti, Test 1, Testēnai, 46123, LT, +37060000000	Main service: <b>Courier</b>		<b>Actions</b> ▾
<input checked="" type="checkbox"/> 1022	Testas Smartposti, Testo g. 1, Testēnai, 46123, LT, +37060000000	Main service: <b>Parcel terminal</b>	Missing pickup point, please edit	<div> Edit shipping information  Generate label  Delete order </div>
<input type="checkbox"/> 1021	Testas Smartposti, +37060000000, SmartPosti Maxima XX Anykščiai, Kalno g. 6, ANYKŠČIAI	Main service: <b>Parcel terminal</b>		

4.3.2. After successful registration of the shipment, the tracking number will appear next to the order in the "Tracking numbers" column.

Tracking numbers

JJFI64926198951791724

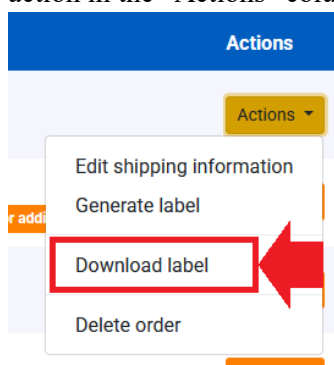

4.3.3. If an error occurs during the registration of the shipment, an error message appears in the "Tracking numbers" column next to the order.

Tracking numbers

Missing pickup point, please edit and select

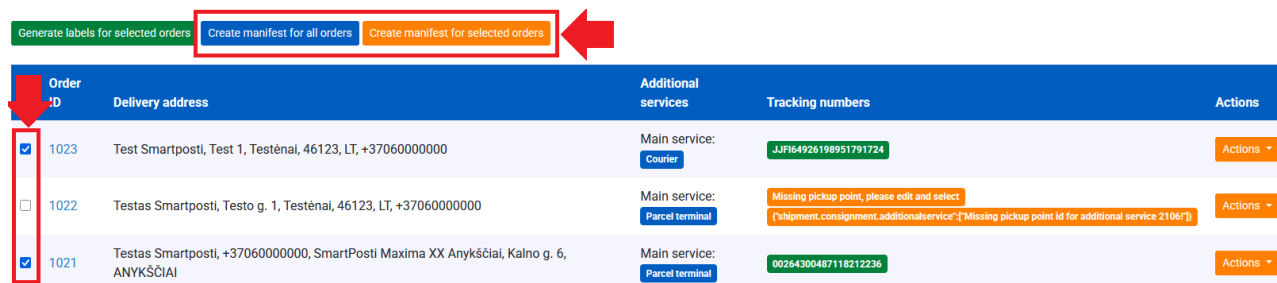

("shipment.consignment.additionalservice":{"Missing pickup point id for additional service 2106"})

4.3.4. For successfully registered shipments, the label can be downloaded by selecting the “Download label” action in the “Actions” column of the order.

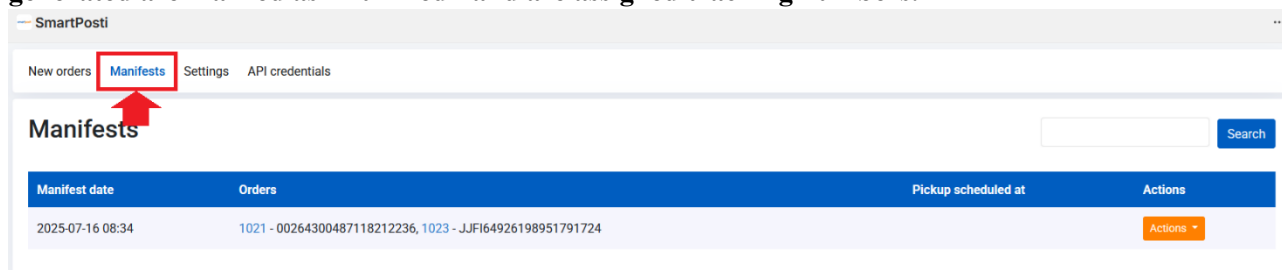

#### 4.4. Manifest generation

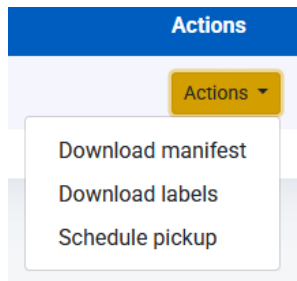

4.4.1. The manifest is generated registered in the order list in the SmartPosti App (described in point 4.2.1 of this instruction). On this page, you can immediately click the “Create manifest for all orders” button to create a manifest for all prepared shipments, or select the desired orders and click the “Create manifest for selected orders” button.

4.4.2. Once the manifest is generated, the manifest list tab will open. The table on this page shows the generated manifests and the shipments in them. **Shopify orders for which a manifest has been generated are marked as "Fulfilled" and are assigned tracking numbers.**

4.4.3. In the "Actions" column next to the manifest, there is an actions to download the manifest, download the labels included in the manifest, or call a courier to pick up the shipments.

#### 4.5. Calling a courier to pick up shipments

- 4.5.1. On the manifest list page in the SmartPosti App (described in point 4.4.2 of this instruction), next to the manifest, select the “Schedule pickup” action (described in point 4.4.3 of this instruction).
- 4.5.2. After calling the courier, the courier's arrival time will appear next to the manifest in the “Pickup scheduled at” column.

Pickup scheduled at
