

AirPrime WP76xx Accessory Boards

USB Driver Developer's Guide

AirPrime WP76xx Accessory Boards are PCI Express Mini Card form factor devices that carry embedded WP76 Series modules (WP7607, WP7610).

When connected, these devices enumerate as WP76xx modules (identical to 'stand-alone' WP76xx module), supporting the same USB interfaces and carrying the same VID (Vendor ID) and PID (Product ID).

Developers wanting to design their own non-Windows drivers for WP76xx accessory boards should refer to the AirPrime WP76xx/WP77xx USB Driver Developer's Guide for information describing:

- Services (protocols) available over the USB connection
- Physical USB interface (device and endpoint descriptors)

To obtain the AirPrime WP76xx/WP77xx USB Driver Developer's Guide, visit source.sierrawireless.com/resources/airprime/minicard/airprime-usb_driver_developers_guide/
