Subject: Product conversion notification.
Fastrack Supreme 10 and Fastrack Supreme 20 are being replaced by Fastrack Xtend

Dear customer,

We inform you Fastrack Supreme 10 (FSU001 and FSU004) and Fastrack Supreme 20 (FSU002 and FSU005) will be replaced by the Fastrack Xtend GPRS (FXT001) and Fastrack Xtend EDGE (FXT002).

Fastrack Xtend is the new product range within Plug and Play series, offering 4 self contained versions supporting:

- EGSM/GPRS/EGDE 900/1800/850/1900 quad band,
- WCDMA 850/1900/2100
- and CDMA2000 1XRTT (IS-2000),

Fastrack Xtend is especially designed for M2M, adding new major functionalities compared to the existing Fastrack Supreme product range.

- Ultra low power mode,
- adaptable GPIO,
- USB native

An external battery is proposed as accessory for all Fastrack Xtend versions.

Transition from Fastrack Supreme to Fastrack Xtend will be done according to following plan:

- Last Time Buy is 30/06/2010
- Last Time Shipment is 30/09/2010

Please note also the existing Fastrack Supreme kitting boxes will be updated with Fastrack Xtend.

You can request samples of both Fastrack Xtend GPRS (FXT001) and Fastrack Xtend EDGE (FXT002) now. Commercial availability of these two references is planned for November 2009.

Fastrack Xtend GPRS (FXT001) and Fastrack Xtend (FXT002) are supported from the Open AT® Software Suite 2.30

The references of each variant in Fastrack Xtend range are listed under.

Part number	Fastrack Xtend Variant
FXT001	EGSM Quad Band + CL10 GPRS
FXT002	EGSM Quad Band + CL 10 GPRS + EDGE
FXT003	EGSM Quad Band + CL 12 GPRS + EDGE + HSxPA + Tri Band WCDMA
FXT004	CDMA2000 1XRTT Dual Band with GPS L1 supported
