Power Output listed is conducted. Single Modular Approval. The antennas used for this transmitter must not transmit simultaneously with any other antenna or transmitter. This filing meets the SAR threshold exclusion set forth in KDB447498, as documented in this filing. OEM/Host integrators must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance; and must insure that the end user has no manual instructions to remove or install this module.

The Grantee is responsible for providing the documentation required for modular use and one of the models applied for this module (BX3100) can only be used with a host antenna circuit trace layout design in strict compliance with the OEM instructions provided. This device contains WLAN and BLE transmitters.

CC: This device is certified pursuant to two different Part 15 rules sections.
