

## ALEOS 4.6.2 Release Notes

This release is only for the AirLink MP70 on the Telstra network.

Refer to the ALEOS Software Configuration User Guide for update instructions.

### **New Feature**

#### **Radio Module Firmware Update**

New radio module firmware for Telstra Lanes SWI9X30C\_02.20.03.01

#### **Dropbear SSH Update**

Updated Dropbear SSH server/client package to version 2016.74 to address security issues. Refer to <https://matt.ucc.asn.au/dropbear/CHANGES> for details.

### **Bug Fixes**

#### **WAN/Cellular**

Resolved an issue where, if the radio module's username and/or password were changed but the APN was not changed, ALEOS would continue using the old username and password.
