

Compliance Statement for AirPrime® Embedded Module

Model: SL8090

(2G) Sierra Wireless hereby confirms that the SL8090 embedded module complies with the applicable requirements in ETSI EN 301 511 V9.0.2 covering the essential requirements of Article 3.2 of Directive 2014/53/EU (Radio Equipment Directive) (RED)

(3G) The Sierra Wireless SL8090 embedded module has been assessed for and found to be compliant with the applicable requirements in ETSI EN 301 908-2 V6.2.1 and the additional applicable receiver requirement(s) referenced in ETSI TS 134 121-1 / ETSI EN 301 908-2 V11.1.1. Supplementing the module's EN 301 908-2 V6.2.1 test reports with the test result(s) for the additional receiver test case(s) meets the requirements of ETSI EN 301 908-2 V11.1.1 covering the essential requirements of Article 3.2 of Directive 2014/53/EU (RED)

Table 1 (below) lists these additional requirement(s) and evidence of compliance.

Table 1 Compliance with Additional Requirement in ETSI EN 301 908-2 V11.1.1

Harmonised EU Standard EN 301 908-2 V11.1.1		Essential Radio Test Suites	ETSI Technical Specification TS 134 121-1 V12.1.0	Evidence of Compliance
Requirement Clause #	Test Suite Clause #			
4.2.13	5.3.12	Receiver Reference Sensitivity level	6.2	Results are in report No.: SH_UT_003955 Issued by CETECOM dated at 2011-05-24

Sierra Wireless hereby confirms that the SL8090 embedded module complies with the applicable requirements in ETSI EN 301 511 V9.0.2 and EN 301 908-2 V11.1.1 covering the essential requirements of Article 3.2 of Directive 2014/53/EU (Radio Equipment Directive) (RED)
