MINI REVIEW

The theory of feminism and its effect on the actions of the United Nations in support of women's rights

The United Nations, as the most important international organization, plays a very important role in improving the status of women in the world and from the same.

The beginning of the establishment put women's rights on its agenda and in this way through the approval of resolutions, announcements, Covenants, conventions, creation of monitoring institutions and holding international conferences and meetings have taken effective steps.

The theory of feminism, especially liberal feminism, which is examined in the framework of critical theories of international relations.

And one of the main concerns of Qaalen is this school.

The special role of women in the fate of human society has caused this group to always be in the focus of attention and schools of thought.

Many people have to offer their opinions and views in this field. The school of feminism presents one of these views during which the expansion of women's rights and role in the society has been emphasized. This view relies on women in three ways

is: First, the main topic and the starting point of all his investigations is the position and experiences of women in society. Second, this. The theory considers women as the focal subject in the research, that is, the world from the distinct perspective of women in the world. It looks socially and thirdly, with a critical attitude plan, it seeks to build a better world for women. Based on this

The characteristics are also feminist with the claim of women's identity and restoration of their lives, which are always considered as the second sex compared to Men are known, by eliminating the distinction between sex and gender, insisting on the belief that only with women attaining the conditions and equal rights with their men and proper dignity of women will be provided. (Atarzadeh: 1385, 8.) since the topic Gender entered the main line of thought through critical theory, original research and development studies during the 1970s and 1980s.

And it became a theory of international relations. It can almost be said that until the 1980s, the role of sex was played through its relationship with power

The study of international relations was neglected. Based on this, some researchers point out that looking at relationships International from the perspective of feminism causes the ontological, epistemological and psychological foundations of international relations with Attention to its key values and concepts will be revised.

Feminism and international relations

According to the approach of feminism, the rules of international relations in the past decade and now have the same meaning as "man". this man

It is not exactly based on individual characteristics, but based on a hegemonic masculinity that expresses the issue that men should go against femininity that has less value. For Ann Tickner, it is clear that gender observations in international relations It exists, hidden by the concept of "gender neutrality" and "objectivity". In other words, although women and gender Both are important parts of day-to-day operations and knowledge of international relations, but this contiguity is neither discussed nor discussed by most Proponents of theoretical arguments have been analyzed. However, the feminist goal in international relations is mentioned in two topics is: first to recognize gender where there are relationships and second behind gender ideas towards shared knowledge moving. Tickner, who values the feminist approaches of international relations based on the recognition of the importance of gender Cruelty advances humanity.

Feminist and other new approaches to power question the mainstream. Also, feminism is the foundations of existence

He challenged the science and epistemology of international relations and tried to find the basis of gender in the center of expressions such as Power, autonomy, rationality - security and government display.

However, it should not be assumed that there was no feminist and women's studies perspective in international relations. Actually Feminist theory with the development of international relations in the 20th century after the end of World War I and successful women's movements in ca Suffrage spread in Britain and America, and writings about democracy and women's rights date back as far as ancient Greece by 1 Sappho and in the Middle Ages by Christian Pisan and in modern Western Europe by Mary Wollstonecraft had. Today's feminism is a product of the European Enlightenment and a global project of freedom, truth and rationality. to each Now, feminists seek to show the role of gender in the analysis of international issues. They believe that by involving women in this International relations can be better understood.

Feminism and international organizations

The feminist theoretical approach examines international relations and international organizations through the lens of gender. Gives. Feminists seek to understand what it means to be feminine in the theory and practice of international organizations.

It means that the feminist approach examines the position, roles and contributions of women in international organizations and the purpose of this article is to understand how the actions and policies of international

organizations affect women. Theoretical approach Feminism genders the study of international organizations by emphasizing the evaluation of the role of women in international organizations this type of gender analysis of recruitment procedures of international organizations to see what jobs women have been employed and evaluate the status of these jobs.

The theoretical approach of feminism examines the role of gender in international organizations in several ways. the first Its method is to examine the contribution and role of women in international organizations. In terms of employment, working women from the usual positions of power have been removed and they make up less than 4% of the decision makers in the United Nations system. This statistic it includes UN ambassadors, managers and senior staff. No wonder women over.
