

# The germ cell of a healthy society

## PRAY

Lord, Jesus Christ, you have become a man and has lived with Mary and Josef in a special family. Be the center of all Christian families today, too. Help these families to light. Make them be a place of peace, mutual take acceptance and unselfish love. Give even those families where God has not found his place yet the willingness to love, forgiveness and mercy. Fill them with your joy. Amen.

## Col 3,19-21

Husbands, love your wives, and avoid any bitterness toward them. Children, obey your parents in everything, for this is pleasing to the Lord. Fathers, do not provoke your children, so they may not become discouraged.

## What does the family do for society?

Family is first of all the place where the continuation of society is ensured. Secondly, the family performs the specific task of socializing and raising children. Cultural, ethical, social, intellectual and religious virtues, values, and traditions are handed down, which are fundamental for every free, conscientious person. Equipped with these tools of a family upbringing, people can assume, with the requisite education, all kinds of responsibilities in society. A third task of the family is that it cares for all members of the household and offers them a safe, private place in which to grow and relax. Fourth (especially in aging societies), it is becoming increasingly important to provide loving care for household members who are sick or handicapped or no longer able to earn money. Here the view of the nuclear family expands to the previous generation, which can promote profound solidarity and at the same time a sense of identity.

1. Which virtues (= strengths and positive habits, which bring out the good) make a family strong?
2. Why are strong and self-confident families an asset for society as a whole?
3. What are the innate tasks of the family and how can the state support them in this respect?
4. How can I contribute to my own family staying or coming alive so that it can assist in the building of society? What do I decide to do in my life if I learn that my family of origin is estranged, destroyed or even not existing (anymore)?

Consider if you know any families in need, in a crisis or coping with a certain challenge. Which service or help could you offer (babysitting, private lessons, do the shopping, visiting). Report at the next meeting about your experiences.
