

**Eliminate Errors
and Serve Your
Customers Faster**

**WorkMarket
Integrations**

Increase visibility across your organization
by leveraging your current systems and
eliminating manual efforts.

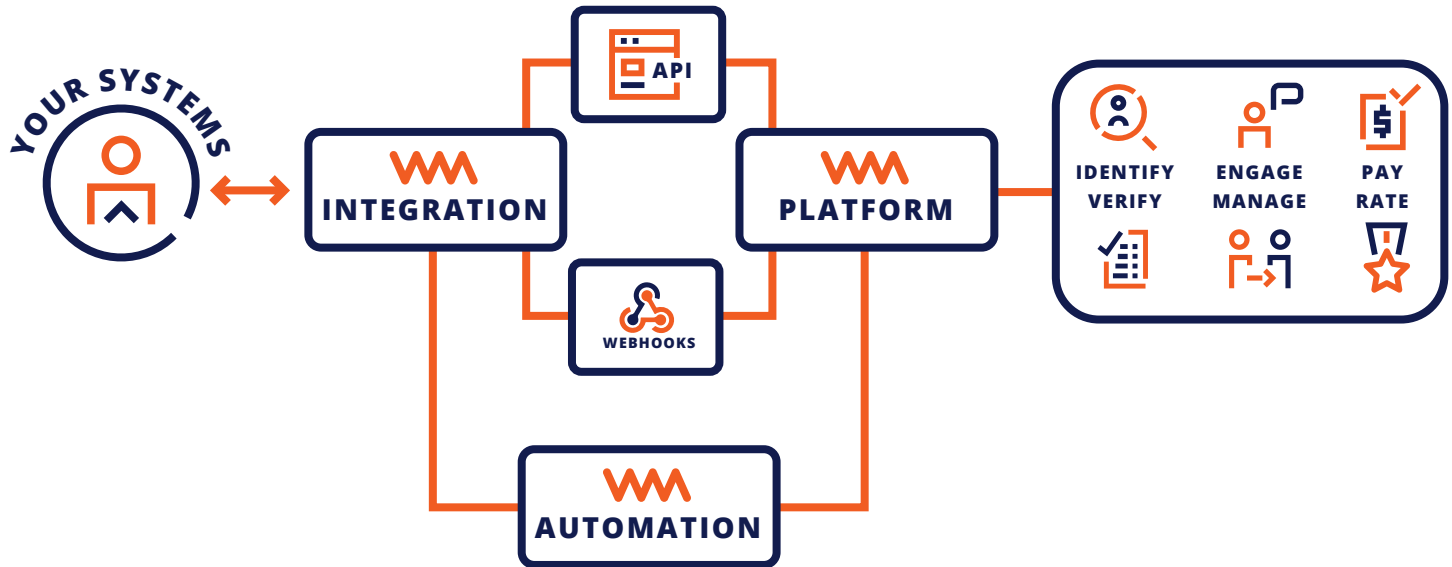

WorkMarket Integrations

Prevent the “swivel chair” effect of re-keying data across multiple systems and minimize errors. WorkMarket's open architecture can connect with your systems, as well as 3rd party systems, via real-time, bi-directional integration.

MORE THAN
1/3RD OF ASSIGNMENTS
ON WORKMARKET
ARE **SUBMITTED
THROUGH AN API.**

Bi-directional, Real-time Integration

Integrate With Your Existing Applications

CRM, SERVICE AND TICKETING

Create a work request and send it directly to your private network of on demand talent managed in WorkMarket. Synchronize your cases with WorkMarket in real-time as updates and events occur.

ERP AND ACCOUNTING SYSTEMS

As your work gets completed, assignments automatically convert into unique invoices with all of the required information you need to track spend and update your ERP or accounting system.

RECRUITING SYSTEMS

Applicant tracking systems help you find the right talent. Send them through a Talent Landing Page to confirm their IRS status and capture their ID for payment or make them available for work.

How Can WorkMarket Integrations Help You Manage Your Extended Workforce?

Open Architecture

- Robust API library with 60+ micro-services and 400+ end points.
- Integrate to existing back end systems with ease, no double entries needed.

Add Intelligence to your Integrations

- Add AI logic to determine whether to pass or collect data.
- Use AI to evaluate assignment milestones and store data in an external database.

Consolidate Data from Silos

- Use API and web-hook technology to pull disparate system data into a centralized repository to make decisions faster.

Unlock the power of
your extended workforce.
