EDUCATION

Jopwell University

Bachelor of Science, Computer Science
Cumulative GPA: 3.2/4.0

Expected May 2023

In addition to including your major, list your relevant coursework.

COURSEWORK

Intro to Computer Science, Intro to Engineering, Fundamentals of Algorithms

SKILLS

Languages: Python, R Programming, SQL, Java, HTML, CSS
Software: Eclipse, MS office, Anaconda, GIT, Sublime, Visual Studio

Highlight those coding language skills.

PROJECTS

Class Project

- Programmed a simple video game with TypeScript.
- Utilized object-oriented programming in order to create objects.

Internships aren't the only way to show your knowledge and expertise. Include projects where you've used relevant skills. Put this section higher on your resume so recruiters read it first!

Independent Project

- Designed and implemented UI of application in XCode.
- Rendered front-end of web app with HTML, CSS, and JavaScript.

EXPERIENCE

Sales Associate, Retail Store, Location

- Boosted store metrics by 5% through rethought store layout.
- Supported floor operations and collaborated with up to 10 other employees to increase top performing stores by sales volume.

It's ok, and common, if you don't have internship experience yet. Use the Experience section to focus on accomplishments and transferrable skills.

LEADERSHIP

Member – Jopwell University, **Computer Science Club**

Jan 2021 – Present

- Attend and participate in weekly meetings that include speakers and professional development activities and events

Participant – Tech Company, **Hackathon**

Jan 2021

- Prototyped with React Native, along with four others, a mobile application using a Machine Learning Algorithm
- Used OpenCV Python Library and Tensor Flow's Keras API to train the model
- Pitched and presented the idea to Tech Company executives

Don't forget to note the different clubs or activities that demonstrate your passion, dedication, and willingness to learn.

Add bullet points to elaborate on your skills and contributions.
