

WHY WE DO WHAT WE DO

INNOVATION & EXPERTISE

We pioneer frictionless digital asset payment & distributed network solutions to build industry leaders in digital business.

PASSION & ETHOS

We're dedicated to building bridges in the digital economy; creating customised client solutions and industry best-practices to drive growth in digital enterprise services.

CUSTOMISED BUSINESS APPROACH

BCW PAYMENTS

We offer a wide range of cutting-edge digital payments technologies & services to meet the specific needs of clients & market demand.

THE FUTURE IS FRICTIONLESS

BCW CONSULTING

We carefully curate customised corporate solutions for enterprise firms to adopt distributed ledger technology to improve their top and bottom lines.

DESIGN & BUILD YOUR FUTURE

BCW TECHNOLOGIES

We build, own & operate API based platforms & microservices and offer a multitude of network infrastructure services to our B2B clients.

THE NETWORK EFFECT

BCW PAYMENTS

THE FUTURE IS FRICTIONLESS

BCW Payments is the industry leader in crafting crypto-commerce based payment options.

We understand the rapid evolution in the global digital economy and implement fast, safe financial on-ramps and off-ramps for each of our clients to maximise their market impact and drive customer growth.

DIGITAL PAYMENTS SERVICES

-  Card Processing (Card-to-Crypto)
-  Debit Card Issuance for digital assets
-  Digital Asset Remittances Services

worldpay
from FIS

BCW Payments works with the largest global acquirer to offer tailored fiat-to-crypto payments solutions to over 100 clients (large exchanges, small-medium exchanges, wallets, Dapps & platforms) across all segments of the digital assets industry.

BCW Payments advises the client market strategies, works on complex client deals & partnerships as well as supports the financial & technical infrastructure uplift of digital asset companies that have the desire to transform into being a global payments provider.

BCW CONSULTING

DESIGN AND BUILD YOUR FUTURE

BCW understands the importance of corporate adoption for distributed ledger technology to grow beyond speculative investment. BCW operates reputable public & private DLT networks to build corporate use cases that are tailored to our corporate client's needs.

The future of transactional processing is here; adoption strategies are where we set ourselves apart from the competition.

-  Business Model Design
-  Product Design
-  Pricing Strategies
-  Digital Services Architecture
-  Go-to-Market Strategies
-  Global Partnerships
-  Program Management

BCW Consulting assumes the duties of Program Manager for the infrastructure build & Go-to-Market for a global law firm's cross-asset, cross-chain token engine platform.

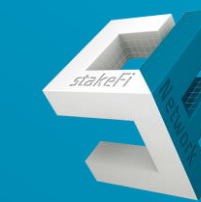

BCW Consulting oversees both the technology build & jurisdictional partnerships to offer regulatory compliant solutions for tokenising commercial real estate, fine art & other collateralised assets.

BCW TECHNOLOGIES

DESIGN & BUILD YOUR FUTURE

BCW Consulting specialises in two segments of the market: designing digital asset services for legacy enterprise corporates & building data driven growth strategies to expedite the maturity of digital asset businesses catering to a wider traditional audience.

-  Network as a Service
-  Infrastructure as a Service
-  Payments Technologies

stakeFi Network

Your Trusted DLT Gateway

stakeFi Network is a B2B Marketplace offering staking & delegation services to enhance digital asset business offerings. A simple integration unlocks a host of DPOS networks allowing clients to offer high-demand staking services in a trustworthy and secure manner without the CAPEX & OPEX constraints.

BCW Technologies will launch stakeFi Network in Q1 2021

ENABLE. SECURE. INCENTIVIZE.

TURNKEY METHODOLOGY

BCW Group applies a customised step-by-step approach to crafting efficient and impactful client solutions.

MEET THE MANAGING PARTNERS

KYLE BARON

GROUP DEVELOPMENT & PARTNERSHIPS

Kyle has a diverse international background in corporate technology, energy and education working for multinationals structuring global partnerships and generating a robust book of clients.

As Managing Partner, Kyle's role is to nurture client and partner relationships while working with the BCW BD team on solid execution of creative strategies to make BCW's clients shine.

HYUNSUK AN

AGENCY OPERATIONS

April has a love for blockchain tech and it's transformative power for supply chain management.

With 13+ years in the cosmetics industry, the need to streamline processes to bring customers affordable and transparent products is a main motivator. April sees blockchain services as a way to empower disenfranchised populations.

DWIGHT VAN DIEM

GROUP STRATEGY & PAYMENTS

Dwight is an avid enthusiast of distributed ledger technologies and their potential to create new ecosystems and attain wide-spread market adoption.

Dwight leads the BCW Payments business; working with partners and clients to implement frictionless payment solutions for the digital economy.

VALUED CLIENTS & PARTNERS

We're passionate about building long-lasting relationships to cultivate thriving digital ecosystems.
We believe the best way forward is together! Our partner agencies share our commitment to world-class service and industry growth.
