

Verification Opinion

Verified with Comments	
<Based on the process and procedures conducted, the GHG statement contained in the GHG Report Season 11_CarbonReport_Formula E_Final produced by Formula E Operations Limited:	Is materially correct and is a fair representation of GHG data and information.
	Has been prepared in accordance with ISO14064-1:2018 and its principles
With the following caveats	- Fuel consumption was verified to invoices but some stock movements from season to season meant reported figures did not match - this is non-material - Some assumptions for non-material categories have used season nine and ten data
