Transaction Summary

Transaction Summary

- On December 18, 2015, Equian (previously a Great Point Partners portfolio company) announced it has been acquired by New Mountain Capital for \$225 mm in cash
- In a related transaction on the same date, New Mountain Capital acquired Trover Solutions and merged it with Equian
 - Once the companies are fully integrated, the combined entity will adopt a new name

Noah Rhodes, III
Principal
Great Point

"We are very proud of the business that we have built with Scott Mingee, CEO, and the entire Equian team over the past eight years. During our partnership, we sourced and executed eleven add-on acquisitions, arranged multiple debt financings for acquisitions as well as a dividend recapitalization, grew revenue by a compound annual growth rate of over 31%, and increased EBITDA more than ten-fold. We know that Equian will continue to thrive, and look forward to seeing the business' continued success."

"The partnership that started in 2007 between the two Co-Founders Russ Sherlock and John Ansay and Great Point Partners has exceeded the goals we set for ourselves in terms of corporate growth and enhanced market position. The Equian sale is also a milestone for GPP I, which had \$156 mm of committed capital. With the Equian distribution, gross distributions from GPP I during 2015 alone now exceed \$165 mm."

"In 2007, the founders of Equian partnered with Great Point Partners to help us create a leading provider of payment integrity solutions. We have had an incredible journey growing Equian into the market leading business it is today, and I am thankful to Great Point Partners for their partnership and confidence in our vision. Together, we built a great company that will continue to thrive for many years to come."

"We are excited about this transaction and the opportunity that it represents for Equian. We will continue to serve our clients with the same level of attention and customer service that we have in the past, and we will now be able to offer them an expanded product offering through our combination with Trover Solutions."
