### Transaction Commentary <sup>(1)</sup>

*"Acko's products have quickly gained popularity in India for three reasons. It does not rely on middlemen, who have proven to slow down innovation for the insurance industry at large. Having direct engagement with a customer allows Acko to offer more competitive and personalized policies."*

*The second is Acko's underwriting technology, for which it comb through a range of data points to assess whether someone is eligible for a policy. Acko has also made it easier for people to access policies and then claim them. As everything is digital, sign-up does not require any paperwork and making a claim is quick, too — factors that keep existing customers happy."*

*"We would love to be in a position where we always have a strong balance sheet"*

**Varun Dua**  
Founder & CEO

*"We're excited to join forces with one of the leading digital insurers in India, as well as other investment partners, to help support Varun and his impressive team as they continue their journey. As Munich Re Ventures' first investment in India, we look forward to the positive impact that digitally native insurance solutions will have on the country with Acko leading the way."*
