## Transaction Summary

### Transaction Summary

- On September 17, 2020, Olive announced that it has raised \$106 million in financing led by General Catalyst and Drive Capital
  - Oak HC / FT, Ascension Ventures and SVB Capital also participated in the round
  - Olive has raised over \$220 million in financing to-date
- This round of funding will be used to continue to expand the Company's operations and its business reach
- Olive provides robotic process automation for healthcare and works as an extension of a hospital's human workforce, automating tasks across departments such as revenue cycle, information technology, supply chain, clinical administration, and HR
- Olive's presence has grown substantially; the Company is used by over 600 U.S. hospitals, including 22% of the nation's top 100 health systems
- This year, the Company's team has grown to over 360 employees, with 67 new additions in August 2020 alone
  - In May 2020, the Company announced a new work model called **The Grid**, which enables Olive to draw top talent and strategically deploy resources closer to customers across the country
  - The Grid allows its employees to work wherever they are and eliminates traditional workplace requirements to increase efficiency

### Transaction Commentary

"The AI workforce is the biggest impact to health systems in our lifetime. Olive has become a piece of critical infrastructure for hospitals and a trusted, reliable product that expands human capacity at a time when resources are more precious than ever. The AI workforce has become the 'new normal'. And while we are excited about this latest investment, we're just getting started."

## FT Partners Research – Healthcare Payments

### Healthcare Payments: Consumerization and Digitization Create a Massive FinTech Opportunity

The healthcare industry, which accounts for 18% of GDP in the United States, is transforming as the industry adapts to more widespread adoption of digital technologies and confronts the challenges of ever rising costs and the pressures it puts on patients, hospitals and physicians ("providers"), insurance companies ("payers"), the government, and other participants. Similar to other areas of financial services, technology is only becoming more important to the delivery of financial services related to healthcare, resulting in the emergence of a Healthcare Payments ecosystem. Innovative business models and new technologies are eliminating inefficiencies within the current system, and challenging incumbents and traditional models.

#### Highlights of the report include:

- Detailed overview of the U.S. healthcare industry and key trends driving change
- A closer look at the emerging FinTech solutions for insurance companies, healthcare providers, employers, and patients
- Landscape of FinTech companies in the Healthcare Payments / Health Insurance ecosystem
- Proprietary list of financing and M&A transactions
- Interviews with more than 20 CEOs and Industry Executives
- Detailed profiles of 60 FinTech companies in the space
