IdentityMind's Sale to Acuant

Overview of Transaction

- On March 31, 2020, Acuant announced it has acquired IdentityMind, a global provider of trusted digital identities and risk management solutions
 - In 2019, IdentityMind announced a strategic partnership with Acuant
- Founded in 2013 and based in the Palo Alto, CA, IdentityMind is a SaaS platform for online risk management and compliance automation that helps companies to reduce client onboarding fraud, transaction fraud and improve AML, sanctions screening and KYC
 - By continuously building, validating and risk scoring digital identities through its eDNA™ technology, IdentityMind ensures global business safety and compliance from customer onboarding and throughout the customer lifecycle
- Acuant provides identity verification solutions, including government-issued identity document and chip authentication and biometric facial recognition, for businesses in all industries

Significance of Transaction

- Expanding its reach across the digital identity lifecycle, Acuant will combine its award-winning Trusted Identity Platform for identity proofing and verification with IdentityMind's Digital Identity Platform for identity creation, risk scoring, transaction monitoring and regulatory compliance (KYC and AML)
- The combination results in an advanced orchestration hub that provides accurate risk decisioning, allowing businesses to move faster and deliver the best user experience across all channels

FT Partners' Role

- FT Partners served as exclusive strategic and financial advisor to IdentityMind
- The transaction underscores FT Partners' successful track record in the Fraud & Risk Management space

How IdentityMind Services Work

Trusted Digital Identities

IdentityMind's eDNA(TM) builds and analyzes digital identities so you can see who's on the other end of the transaction and decide what to do in real time

Identity Analysis

eDNA correlates the attributes (50+) within an identity, taking into account changes over time, and it also discovers relationships with other identities

Identity Reputation

IdentityLink Analysis provides a reputation score that reflects the latest information about an entity and gives you a basis for trust decisions

Rules Engine

The IdentityMind platform includes a rules engine so you can set transaction acceptance and rejection thresholds; Determine when you want to send a transaction to be reviewed by your analysts

Many Data Services, One API

IdentityMind allows customers to verify user provided data to determine its validity; integrates with a wide variety of third parties to verify name, address, phone number, TIN, SSN, IP address, email, documents and more

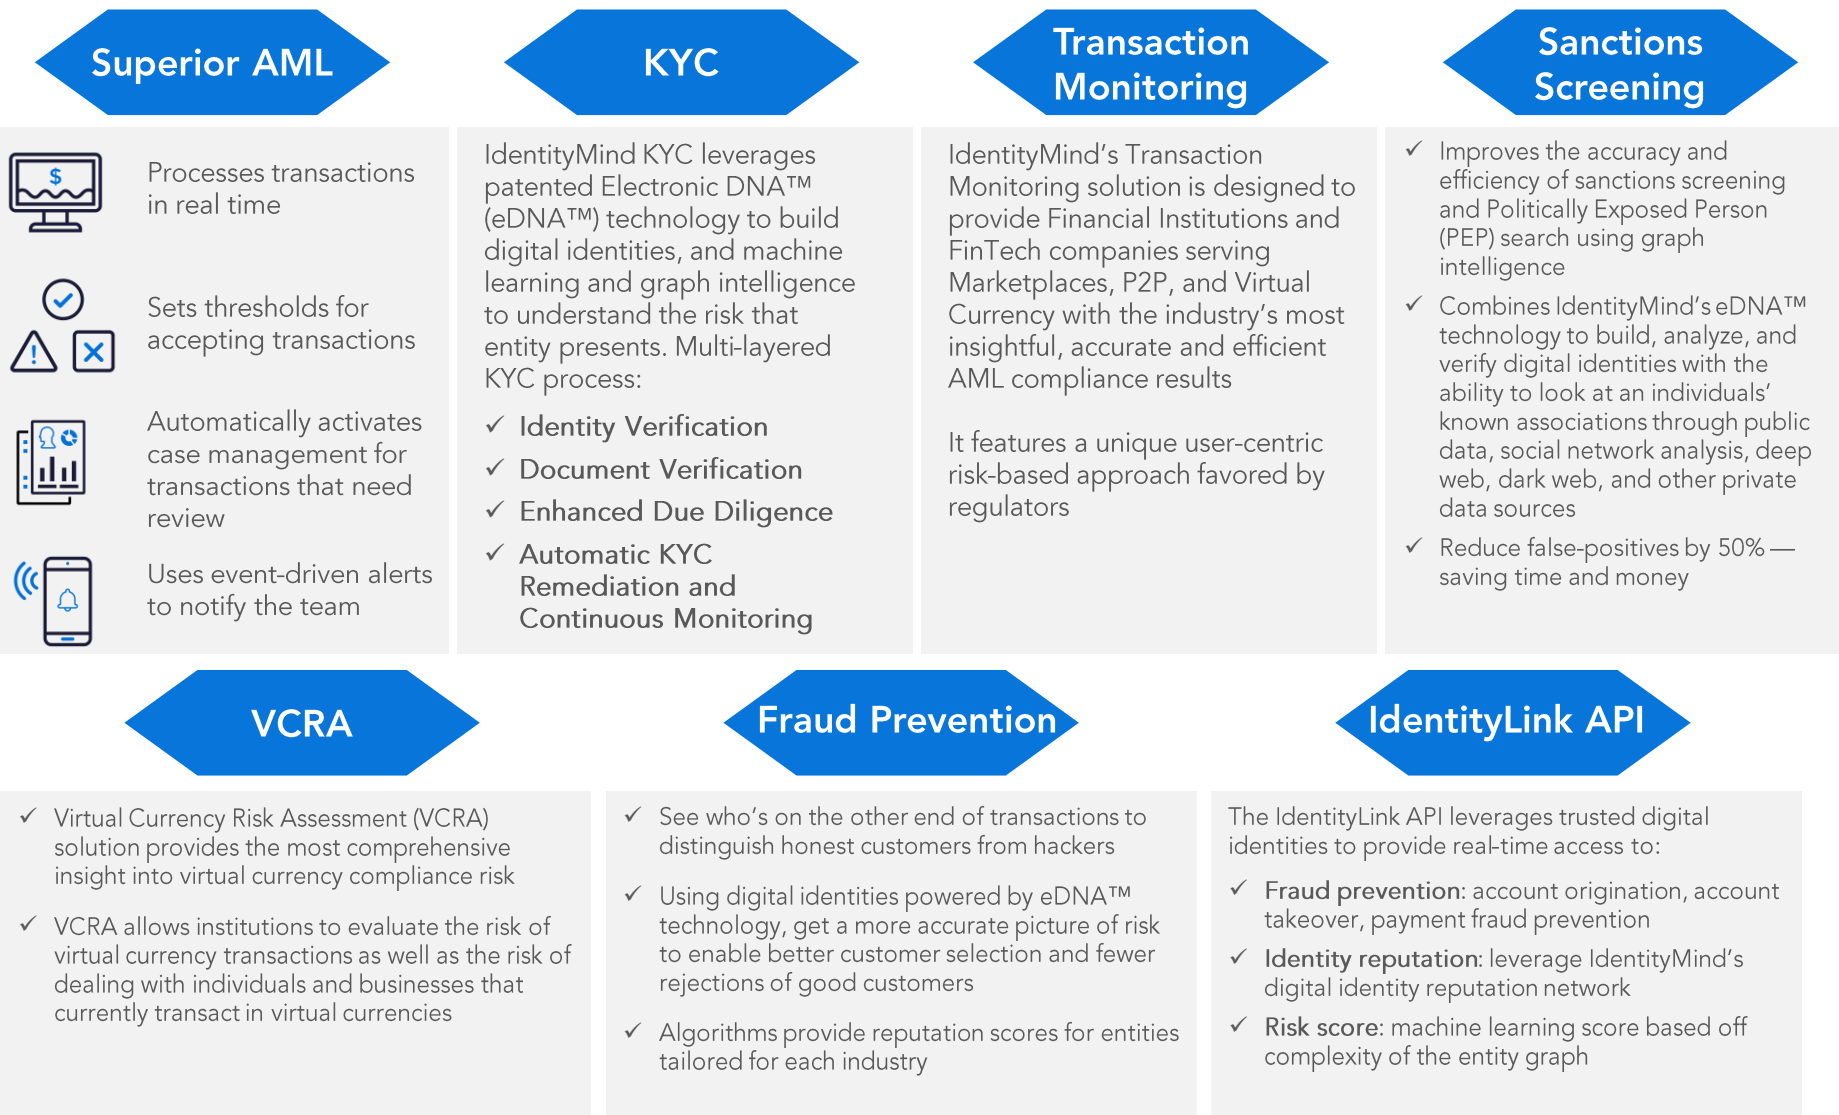

Identity Network

Its identity network lets you see who's on the other end of the transaction, even if you haven't seen them before, if they've transacted with another IdentityMind customer; Encryption ensures privacy across all the identities on the network
