

RENAISSANCE FIREARMS CERAKOTE, STIPLING, & GUNSMITHING SHIPPING PROCEDURES

Rifles & Shotguns

Unloaded rifles and shotguns are mailable if the shipping container complies with the rules and regulations under 27 CFR, Part 478 (*the regulation explaining the requirements for manufacturing, importing, buying, selling, and transporting firearms and ammunition*), and your state and local laws. It explains that the public can ship long guns via the United States Postal Service (USPS) as well as a carrier such as UPS or FEDEX. The USPS requires that the package have a 'Return Service Requested' endorsement and be sent by Priority Mail ('signature required' at delivery) or Registered Mail or be insured for more than \$200 and require a signature at delivery. Short-barreled rifles or shotguns that can be concealed by a person cannot be mailed through the USPS.

Other Firearms

Handgun parts can be mailed through the USPS; except for frames, receivers, other components, or other regulated parts which could be assembled to form a firearm. **A handgun itself cannot be mailed through the USPS.** Handguns, as defined by 18 U.S.C § 921, are accepted by carriers such as UPS or FEDEX for next-day or second-day air only. Most shops will tell you that it may cost a bit more but shipping via UPS or FEDEX is the most reliable for any type of gun or firearm part. UPS does not accept automatic weapons, however FEDEX and FEDEX Ground will send any firearm including machine guns (*though they may not insure the package for more than one-thousand dollars.*)

SHIPPING YOUR FIREARM TO RENAISSANCE FIREARMS

The below information is for general use and is not intended to be a legal document. When shipping a firearm, you should always check on current regulations with your carrier and state as laws and rules may change. Understandably, if you have questions our staff is available by phone to help walk through you any challenges as you prepare to send us your project. Do not hesitate to call us at (603)-994-4867 or email us at Jay@RenArms.com for Cerakote/Stippling questions, and Rayce@RenArms.com for Gunsmithing.

SHIP TO:

Renaissance Firearms

ATT: Cerakote/Gunsmithing Department (one or the other)

55 Calef Highway

Barrington, NH 03825

STEP 1: Prepare your Shipment

- Double-Check to ensure your firearm(s) is clear of all ammunition
- Wrap components and accessories to be coated individually with packing material
- Include a photocopy of your state-issued photo I.D. or Driver's License. This is required for record keeping on all shipments.
- Include on a separate sheet of paper (or the back of our work-order form) your phone number and email address so that we may contact you should we have questions.
- Avoid any identifying marks or logos on the packaging that would indicate the contents
- Ship everything in a box, we recommend using a generously sized, strong corrugated cardboard box that is new or lightly used. Bubble wrap is the best packing material that is readily available, but we also suggest custom-molded foam inserts if you have access to them.

STEP 2: Send your Shipment

- In the recipient address ensure to write ATT: CERAKOTE/GUNSMITHING DEPARTMENT (one or the other) below the recipient line or below Renaissance Firearms
- Insure your package for the replacement value. Renaissance Firearms is not responsible for any damage(s) incurred in transit to our facility due to negligent packing.
- We encourage all customers to register their package & include tracking to ensure delivery confirmation.
- Deliver the package to a main facility in your area for whatever carrier you choose (not a local store,) you must verbally notify the customer service clerk of the contents
