

CONCRETE IN ALL SHAPES AND SIZES IBSTOCK'S GOT IT COVERED

WHAT WE DO

At Ibstock, we manufacture your design off-site with the product precast to the exact individual specifications required, eliminating the potential resource, cost and risk implications associated with casting concrete on-site. We supply to a wide range of sectors, including:

- › Commercial projects
- › Rail & infrastructure
- › Highways
- › Utilities
- › Power generation
- › Plus much more

We work in partnership with you from the initial design stages of each project, right through to delivery, to ensure every element is manufactured to the highest standards. Our bespoke manufacturing capabilities enable us to produce large volumes of custom-made concrete solutions, whatever the application.

OUR PRODUCTS CAN HELP ADD REAL VALUE TO ANY PROJECT IN A NUMBER OF WAYS, INCLUDING:

- › Unbeatable quality for a consistent product
- › Great cost effectiveness
- › Efficient – you don't need to wait for the concrete to cure, leaving you time to complete other tasks
- › Low carbon – helping you meet sustainability targets
- › Our experienced industry estimators can return quotes within 24 hours
- › Our own on-site moulding facilities ensure timely availability
- › Nationwide delivery with specialist crane offload haulier availability
