

Staircases

- Rapid installation on site
- Safe and clean installation through offsite manufacturing facilities
- Immediate floor to floor access for follow on trades
- Fire resistance
- Excellent noise reduction and sound insulation
- Staircases and landings are manufactured off site, minimizing disruption

Longley

Staircases

Longley Concrete Ltd provide bespoke precast concrete stair units and landings, designed and installed to your project's exact requirements. Our experienced engineers can advise you on what would best suit your project, including standard straight flights or precast winding staircases.

Suitable Applications

Longley Concrete staircases can be used in a variety of applications, including:

- Residential
- Care Homes
- Schools
- Offices
- Hospitals
- Retail
- Car Parks

Size and Configuration:

- Our stairs can be manufactured to specific client requirements and are fully designed by our in house design team. Manufactured to close tolerances (± 5 mm).

Installation:

- Our stairs can be supported on masonry, concrete and steel structures and up to 6 stories can be installed within a day. Once installed our stairs grant immediate floor to floor access for follow on trades.

Fire Resistance:

- Our stairs can offer up to 2 hours fire resistance without the need for further treatment.
