Partner Spotlight: Lead4Life

About Us
Lead4Life is a nonprofit 501(c)3 organization providing services to youth, adults, and families in Maryland. Lead4Life is assisting the most vulnerable populations throughout Maryland and giving them the tools and resources
to be on the same playing level as their peers. Lead4Life uses a peer (near)-to-peer model and allows the participants to be the driver of service delivery.

**How is your organization meeting the mental health needs of LGBTQ+ and BIPOC youth in your community?**

Lead4Life is meeting the youth where they are in the community. We are accepting of their status and what they want as their mental health services. Lead4Life has discovered most of our youth do not want to participate in therapy so we have provided opportunities for the youth to participate in life coaching services and social activities. Life coaches are provided virtually and in person for 1 to 1.5-hour per session. Life coaching allows youth to work with a professional to assist with navigating through their current life crisis and provides tools to help steer the youth in the direction of interest. Lead4Life provides monthly activities such as hiking, overnight trips, and helping youth explore their future goals.

**How has support from The Upswing Fund helped your organization to achieve its goals?**

The funding from Upswing is tremendous. It has allowed Lead4Life to get creative with mental health services being provided to youth as opposed to just depending on insurance coverage. The funding has allowed Lead4Life to gain the resources needed through life coaching services to motivate youth and help them navigate life "right where they are" as opposed to having to relive their trauma when they don't want to. The funding has been critical to helping youth learn how to deal with their behavioral issues separately from their mental health symptoms. The leadership from the youth to make the necessary changes is critical to accept them where they are and allow them to find their own untraditional "prescriptions" to help them heal, explore, and build resiliency.

**What's a recent success that your organization is proud of?**

Lead4Life has two youth that has completely taken themselves off of medication management and has learned how to deal with the behaviors that were causing them to be unsuccessful within their community and school. Lead4Life has a youth that was a victim of sex trafficking who became a youth leader and is now helping peers who have been victimized. Lead4Life provided five youth with an opportunity to enjoy the beach for four days before school started. The youth who participated in the trip built relationships with peers in other states which enhanced their visibility of
them living to their fullest potential. Youth are taking the lead to help complete strangers in the community explore what their barriers are to completing school and gaining employment.

**How can readers support your work?**
Readers can donate time as life coaches, make a donation to support our social activities, and help spread the word about our service delivery.

Paramount Media Networks & MTV Entertainment Studios launches Hidden Healers, a mental health series that elevates BIPOC voices and communities.
Paramount Media Networks & MTV Entertainment Studios (MTVE) introduces Hidden Healers, a digital content series created in partnership with a group of four mental health young leaders to drive mental health actions that honor the heritage of BIPOC communities and cultures. They also highlight industry partnerships formed with other young leaders to tackle new and innovative mental health solutions.

Earlier this year, The Upswing Fund served as a mentor for the first-ever Mental Health Youth Action Forum. During the Forum youth participants presented campaign ideas to a range of industry partners. We’re happy to see some of these campaign ideas come to life such as Mind in Progress, Befriend Your Beasts, and Hidden Healers.

Giving Tuesday

Mark your calendars! Giving Tuesday is Tuesday, November 29. To support the mental health and well-being of BIPOC and LGBTQ+ youth, here are two ways where your generosity can have impact:

- If you are interested in supporting Upswing’s community of partners and learning about advancements, challenges, and needs across the broader adolescent mental health ecosystem, we’d love to speak to you. We work together with philanthropists, corporations, and
community members who share our commitment to a system of care
that is both accessible and equitable for all youth.

- Since our launch in October 2020, we’re proud to have partnered with
  92 community-based organizations that are providing affirming and
culturally responsive care to youth across the country. If you’re ready
to respond to the youth mental health crisis, check out our list of
partners to find an organization in your area, or one with a mission
close to your heart. Whether it's your time or financial resources,
know that every little bit of assistance helps.

**Happy Diwali!**
