SUMMER IN CHICAGO

This summer you can explore the world of economics, conduct meaningful STEM research, dissect ideas through thoughtful discourse, and experience what makes UChicago such a distinctive intellectual destination. All Summer Session courses and programs are designed for high school students ready to tackle undergraduate-level material alongside peers from around the world.

When the day's classes are done, you can soak in the splendor of summer in Chicago with your new friends: tasting bubble tea and deep-dish pizza, taking in the sunset on Lake Michigan's shores, or enjoying movies on the quad of UChicago's beautiful ivy-covered, gothic campus.
