

Steven D. Bishop

Chief Executive Officer - Health Care

Steve Bishop leads P&G’s global Health Care business, which features a portfolio of \$1 billion-plus dollar properties under Crest, Oral-B and Vicks—along with many other well-known brands such as Metamucil, Pepto-Bismol, Fixodent and Neurobion.

He has significantly expanded the business size and footprint through both organic growth as well as transformative mergers and acquisitions, including the recent acquisition of Merck KGaA Consumer Health Care.

Steve’s career spans more than three decades and reflects broad experience in a variety of roles across all P&G’s businesses. He is passionate about impacting the lives of consumers around the world. It was Steve’s visionary leadership that led to the creation and launch of Always Discreet in the Adult Incontinence category—one of the company’s most successful organic category entries in recent times.

Beyond his responsibilities leading Health Care, Steve also serves on multiple company Boards focused on quality assurance, diversity, inclusion, and innovation.

Outside of P&G, Steve serves on the Board of Cintrifuse, a public/private partnership whose mission is to develop a thriving technology-based start-up network in the Cincinnati region.
