Learn About Venice

This church was first built in the 9th century. That's nearly 1,200 years ago!

A bell tower that stands at 323 feet high!

A city located in northern Italy. It was built on top of over 100 small islands!

There are no streets in Venice, which means no cars! Instead, people take water buses or water taxis on the Grand Canal.

These popular Venetian boats take people around the city. Gondoliers use long oars to steer them.
