

Little Baby Bum: Music Time

Dhol Drum

1

Gather supplies

- Recycled oatmeal container
- 2 x beige balloons
- Brown construction paper
- Pink and blue electrical tape
- Glue stick
- String or rope
- Hot glue
- Yellow paint
- Scissors
- Mini tassels
- Paintbrush
- Two dowel sticks

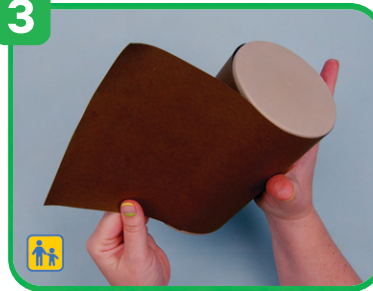

2

Cut

Cut the narrow end from each balloon and stretch over the ends of the oatmeal container.

3

Wrap

Use the brown construction paper to wrap around the drum and glue it to the container.

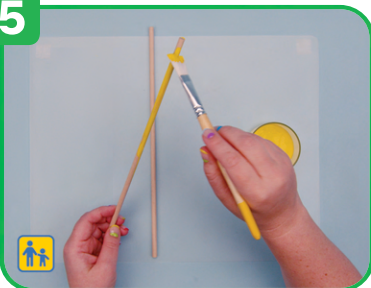

4

Decorate

Glue the string in an up and down zig-zag pattern around the drum. Attach a mini tassel at each turn.

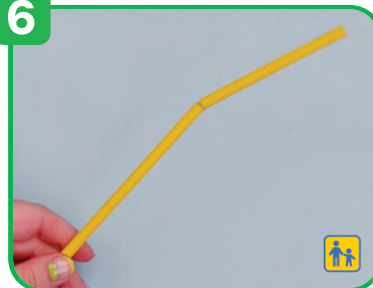

5

Paint

Start creating your dagga and teeli sticks by painting both dowels with the yellow paint and let dry.

6

Bend

Use scissors to score one of the sticks about 3 inches from one end. Bend the stick at the score but do not break it entirely off.

7

Tape

Wrap each stick with electrical tape as shown in the picture.

Have an adult help with this project.
